APP Polyclonal antibody Catalog Number:10524-1-AP 3 Publications

Antibodies | ELISA kits | Proteins WWW.ptglab.com

		BC00/760	Antinen effinite
	10524-1-AP	BC004369	Antigen affinity purification
	Size: 150ul , Concentration: 133 µg/ml by	GenelD (NCBI): 351	
	Bradford method using BSA as the	UNIPROT ID:	
	standard;	P05067	
	Source: Rabbit	Full Name:	
		amyloid beta (A4) precursor protein	
	Isotype: IgG	Calculated MW: 87 kDa	
	Immunogen Catalog Number: AG0769	0, 100	
Applications	Tested Applications: ELISA		
	Cited Applications:		
	WB		
	Species Specificity:		
	human		
	human Cited Species:		
Background Information	Cited Species: human, mouse, rat Aβ derives from APP via proteolytic	cleavage by proteases called α-, β- and	
Background Information	Cited Species: human, mouse, rat Aβ derives from APP via proteolytic precludes the formation of Aβ, while features. Amyloid beta A4 precursor a cell surface receptor and performs j neuronal adhesion and axonogenesi and spleen, but weak in liver. Defect	cleavage by proteases called a-, β - and the β - and γ -cleavages generate APP protein(APP), encoded by APP gene wh physiological functions on the surface s. APP expressed in all fetal tissues an s in APP are the cause of Alzheimer di APP: Soluble APP-alpha and Soluble A	components with amyloidogenic nich locate on human chromosome 21 of neurons relevant to neurite growth d is pronounced in brain, kidney, hear sease type 1 (AD1). This antibody can
	Cited Species: human, mouse, rat Aβ derives from APP via proteolytic precludes the formation of Aβ, while features. Amyloid beta A4 precursor a cell surface receptor and performs j neuronal adhesion and axonogenesi and spleen, but weak in liver. Defect	the β - and γ -cleavages generate APP protein(APP), encoded by APP gene wh physiological functions on the surface s. APP expressed in all fetal tissues an s in APP are the cause of Alzheimer di	components with amyloidogenic nich locate on human chromosome 21 of neurons relevant to neurite growth d is pronounced in brain, kidney, hear sease type 1 (AD1). This antibody can
	Cited Species: human, mouse, rat Aβ derives from APP via proteolytic precludes the formation of Aβ, while features. Amyloid beta A4 precursor a cell surface receptor and performs neuronal adhesion and axonogenesi and spleen, but weak in liver. Defect recogniaze the N-terminus of human	the β - and γ -cleavages generate APP protein(APP), encoded by APP gene wh physiological functions on the surface s. APP expressed in all fetal tissues an s in APP are the cause of Alzheimer di	components with amyloidogenic nich locate on human chromosome 21 of neurons relevant to neurite growth d is pronounced in brain, kidney, hear sease type 1 (AD1).
