Lumican Polyclonal antibody

Catalog Number: 10677-1-AP 4 Publications

	10677-1-AP	BC007038	Purification Method: Antigen affinity purification	
	Size: 150ul , Concentration: 400 ug/ml by Nanodrop;	GenelD (NCBI):	Recommended Dilutions: WB 1:500-1:1000 IF-P 1:50-1:500	
		4060		
		UNIPROT ID:		
	Source:	P51884		
	Rabbit	Full Name:		
	Isotype: IgG	lumican Calculated MW: 38 kDa Observed MW:		
	Immunogen Catalog Number: AG1106			
				50-90 kDa
		Applications	Tested Applications:	Positive Controls:
WB, IF-P, ELISA	WB : Jurkat cells,			
Cited Applications: WB, IF	IF-P : mouse spleen tissue,			
Species Specificity:				
human, mouse, rat				
Cited Species: human, rat				
	lumican (ILIM) a member of the small	Il louging rich protogolycon (SI)	PD) family is one of the major outracellular	
Background Informatior	bone, cartilage, and intervertebral di matrix proteins and have important keratan sulfate proteoglycan in the c Posttranslational modifications lum Studies show that lumican participat	us matrices of the corneal strom scs. SLRPs constitute an importa effects on cell behavior. Lumicar cornea and may exist as a glycop ican goes through can increase in tes in the maintenance of tissue	ts apparent molecular weight to 50-90 kDa. homeostasis and modulates cellular functions	
	bone, cartilage, and intervertebral di matrix proteins and have important keratan sulfate proteoglycan in the c Posttranslational modifications lum Studies show that lumican participat	us matrices of the corneal strom scs. SLRPs constitute an importa effects on cell behavior. Lumicar cornea and may exist as a glycop ican goes through can increase in tes in the maintenance of tissue	a, aorta, skin, skeletal muscle, lung, kidney, nt fraction of noncollagenous extracellular n regulates collagenous matrix assembly as a protein in the connective tissues of other organ ts apparent molecular weight to 50-90 kDa.	
	bone, cartilage, and intervertebral di matrix proteins and have important keratan sulfate proteoglycan in the c Posttranslational modifications lum Studies show that lumican participat including cell proliferation, migratic	us matrices of the corneal strom scs. SLRPs constitute an importa effects on cell behavior. Lumicar cornea and may exist as a glycop ican goes through can increase in tes in the maintenance of tissue	a, aorta, skin, skeletal muscle, lung, kidney, nt fraction of noncollagenous extracellular n regulates collagenous matrix assembly as a protein in the connective tissues of other organ ts apparent molecular weight to 50-90 kDa. homeostasis and modulates cellular functions	
	bone, cartilage, and intervertebral di matrix proteins and have important keratan sulfate proteoglycan in the of Posttranslational modifications lum Studies show that lumican participal including cell proliferation, migratic	us matrices of the corneal strom scs. SLRPs constitute an importa effects on cell behavior. Lumicar cornea and may exist as a glycop ican goes through can increase in tes in the maintenance of tissue n, and differentiation. (PMID: 18	a, aorta, skin, skeletal muscle, lung, kidney, int fraction of noncollagenous extracellular in regulates collagenous matrix assembly as a protein in the connective tissues of other organ ts apparent molecular weight to 50-90 kDa. homeostasis and modulates cellular functions 1949819; 22252641; 9761754; 22365843) Application

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Jurkat cells were subjected to SDS PAGE followed by western blot with 10677-1-AP (Lumican antibody) at dilution of 1:800 incubated at room temperature for 1.5 hours. Immunofluorescent analysis of (4% PFA) fixed paraffin-embedded mouse spleen tissue using Lumican antibody (10677-1-AP) at dilution of 1:200 and Multi-rAb Coralite @ Plus 488-Goat Anti-Rabbit Recombinant Secondary Antibody (H+L) (RGAR002). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
