MMP14 / MT1-MMP Polyclonal antibody

Catalog Number:14552-1-AP

32 Publications

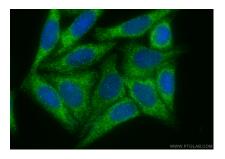

Basic Information	Catalog Number: 14552-1-AP	GenBank Accession Number: BC064803	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 550 ug/ml by	4323	WB 1:500-1:1000	
	Nanodrop;	UNIPROT ID:	IF/ICC 1:200-1:800	
	Source:	P50281		
	Rabbit	Full Name:		
	Isotype: IgG	matrix metallopeptidase 14 (membrane-inserted)		
	Immunogen Catalog Number: AG5965	Calculated MW: 66 kDa		
		Observed MW: 66 kDa, 45-50 kDa		
Applications	Tested Applications:	Positive Controls:		
	WB, IF/ICC, ELISA	WB: A549	WB : A549 cells, human colon tissue	
	Cited Applications: WB, IHC, IF	IF/ICC : H	IF/ICC : HepG2 cells, COLO 320 cells	
	Species Specificity: human, mouse, rat			
	Cited Species: human, mouse, rat			
Background Information	Tote in tumor growth, invasion and h	netastasis. MT1-MMP is a cell mem	IMP) family member which plays a crucial brane-bound proteinase, and it enhances rane, by forming a complex with tissue	
Background Information	degradation of collagen IV, a major of inhibitor of metalloproteinase-2 (TI) intrahepatic metastasis, and patient present in centromere and could lead more novel functions in the intracell	netastasis. MT1-MMP is a cell memi component of the basement memb MP-2) to activate pro-MMP-2. MT1-N coutcome in hepatocellular carcino d to chromosome instability in MD0 ular compartments. In western blo	brane-bound proteinase, and it enhances rane, by forming a complex with tissue IMP can influence venous invasion, oma (HCC). MT1-MMP was reported to be CK cells, indicating that MT1-MMP may ha tting, pro-MMP14 (65 kDa) and MMP14 (51

Selected Validation Data

A 549 cell lysates were subjected to SDS PAGE followed by western blot with 14552-1-AP (MMP14 / MT1-MMP antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours. Immunofluorescent analysis of (-20°C Ethanol) fixed HepG2 cells using MMP14 / MT1-MMP antibody (14552-1-AP) at dilution of 1:400 and CoraLite®488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2).
