CAMKV Polyclonal antibody

Catalog Number: 14788-1-AP 3 Publications

Basic Information	Catalog Number: 14788-1-AP	GenBank Accession Number BC000497	er: Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 500 ug/ml by	79012	WB 1:500-1:2400	
	Nanodrop and 267 ug/ml by Bradford method using BSA as the standard;	UNIPROT ID: Q8NCB2	IP 0.5-4.0 ug for 1.0-3.0 mg of total protein lysate	
	Source:	Full Name:	IF-P 1:50-1:500	
	Rabbit	CaM kinase-like vesicle-associated		
	Isotype: IgG	Calculated MW: 54 kDa		
	Immunogen Catalog Number: AG6438	Observed MW: 54-75 kDa		
Applications	Tested Applications:	Pos	Positive Controls:	
	WB, IF-P, IP, ELISA Cited Applications:		: mouse brain tissue, HeLa cells, mouse spleen ue, PC-3 cells	
	WB, IHC, IF		mouse brain tissue,	
	Species Specificity: human, mouse, rat	IF-F	IF-P: mouse brain tissue,	
	Haman, moase, rat			
	Cited Species:			
Background Information	human, mouse CAMKV(CaM kinase-like vesicle-asso		ed as 1G5,VACAMKL and belongs to the CAMK	
Background Information	human, mouse CAMKV(CaM kinase-like vesicle-asso Ser/Thr protein kinase family. The CA development, binds to calmodulin in cerebellum, but is detected in most o predominantly detected in association	MKV protein, which accume the presence of calcium. It i ther brain regions, especiall on with the plasma membrar in active zones, usually ass	llates predominantly during postnatal s detected only in the CNS, is absent from	
	human, mouse CAMKV(CaM kinase-like vesicle-asso Ser/Thr protein kinase family. The C/ development, binds to calmodulin in cerebellum, but is detected in most o predominantly detected in associatio dendrites, and is frequently observed	MKV protein, which accume the presence of calcium. It i ther brain regions, especiall on with the plasma membran in active zones, usually ass associated(PMID:8283228). med ID Journal 51807 Mol Neurool 34529 Ann Neurool 53019 Mol Oncol er shipment.	Idates predominantly during postnatal s detected only in the CNS, is absent from y regions of the cortex. The protein is ne of somatic cell and in neurites, both axons an ociated with vesicle-like structures. Its sequence egener WB WB,IHC,IF	
Notable Publications	human, mouse CAMKV(CaM kinase-like vesicle-asso Ser/Thr protein kinase family. The C/ development, binds to calmodulin in cerebellum, but is detected in most o predominantly detected in associatio dendrites, and is frequently observed suggests that IG5 may be membrane Author Pub Qingyang Zhang 345 Michael Gilligan 386 Tianwei Chen 364 Storage: Store at -20°C. Stable for one year aft Storage Buffer:	AMKV protein, which accumu the presence of calcium. It i ther brain regions, especiall on with the plasma membrar lin active zones, usually ass associated(PMID:8283228). med ID Journal 51807 Mol Neurod 34529 Ann Neurol 53019 Mol Oncol er shipment.	Idates predominantly during postnatal s detected only in the CNS, is absent from y regions of the cortex. The protein is ne of somatic cell and in neurites, both axons an ociated with vesicle-like structures. Its sequence egener WB WB,IHC,IF	
Notable Publications	human, mouse CAMKV(CaM kinase-like vesicle-assored Ser/Thr protein kinase family. The C/development, binds to calmodulin in cerebellum, but is detected in association dendrites, and is frequently observed suggests that LG5 may be membrane Author Pub Qingyang Zhang 345 Michael Gilligan 386 Tianwei Chen 364 Storage: Storage Storage Buffer: PBS with 0.02% sodium azide and 50	AMKV protein, which accumu the presence of calcium. It i ther brain regions, especiall on with the plasma membrar lin active zones, usually ass associated(PMID:8283228). med ID Journal 51807 Mol Neurod 34529 Ann Neurol 53019 Mol Oncol er shipment.	Idates predominantly during postnatal s detected only in the CNS, is absent from y regions of the cortex. The protein is ne of somatic cell and in neurites, both axons an ociated with vesicle-like structures. Its sequence egener WB WB,IHC,IF	

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

mouse brain tissue were subjected to SDS PAGE followed by western blot with 14788-1-AP (CAMKV antibody) at dilution of 1:1200 incubated at room temperature for 1.5 hours.

IP result of anti-CAMKV (IP:14788-1-AP, 4ug; Detection:14788-1-AP 1:500) with mouse brain tissue lysate 4000ug.

Immunofluorescent analysis of (4% PFA) fixed mouse brain tissue using 14788-1-AP (CAMKV antibody) at dilution of 1:50 and CoraLite488-Conjugated Goat Anti-Rabbit IgG(H+L).
