Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 16182-1-AP (RAB31specific antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. Immunohistochemical analysis of paraffinembedded human colon tissue slide using 16182-1-AP (RAB31-specific antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
