For Research Use Only

HDAC8 Polyclonal antibody

Catalog Number:17548-1-AP

Featured Product

20 Publications

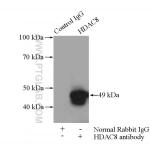

Basic Information	Catalog Number: 17548-1-AP	GenBank Accession N BC050433	umber:	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):		Recommended Dilutions:	
	150ul, Concentration: 300 µg/ml by	55869		WB 1:500-1:2000 IP 0.5-4.0 ug for IP and 1:500-1:1000 for WB IF 1:50-1:500	
	Nanodrop and 140 µg/ml by Bradford method using BSA as the standard;	Full Name: histone deacetylase 8			
	Source: Rabbit	Calculated MW: 377 aa, 42 kDa	IF 1:50-1:500		
	lsotype: IgG	Observed MW: 49 kDa			
	Immunogen Catalog Number: AG11696				
Applications	Tested Applications:	Positive Controls:			
	IF, IP, WB,ELISA	WB : HeLa cells, Raji cells			
	Cited Applications: IHC, WB		IP:Raji cells,		
	Species Specificity: human, mouse, rat	IF : HeLa cells,			
	Cite d Caracian				
	Cited Species:				
	human, rat, mouse

For technical support and original validation data for this product please contact:T: 1 (888) 4PTGLAB (1-888-478-4522) (toll freeE: proteintech@ptglab.comin USA), or 1(312) 455-8498 (outside USA)W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

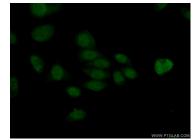

Selected Validation Data

HeLa cells were subjected to SDS PAGE followed by western blot with 17548-1-AP (HDAC8 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.

IP Result of anti-HDAC8 (IP:17548-1-AP, 4ug; Detection:17548-1-AP 1:600) with Raji cells lysate 2800ug.

Immunofluorescent analysis of (10% Formaldehyde) fixed HeLa cells using 17548-1-AP (HDAC8 antibody) at dilution of 1:50 and Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
