

For Research Use Only

CoraLite®488-conjugated TNF Alpha Monoclonal antibody

Catalog Number:CL488-60291

Basic Information

Catalog Number: CL488-60291	GenBank Accession Number: BC028148	Purification Method: Protein A purification
Size: 100UL, Concentration: 1000 µg/ml by Bradford method using BSA as the standard;	GeneID (NCBI): 7124	CloneNo.: 7B8A11
Source: Mouse	Full Name: tumor necrosis factor (TNF superfamily, member 2)	Recommended Dilutions: IF 1:50-1:500
Isotype: IgG2b	Calculated MW: 233 aa, 26 kDa	Excitation/Emission maxima wavelengths: 488 nm/515 nm
Immunogen Catalog Number: AG11413		

Applications

Tested Applications: IF, ELISA	Positive Controls: IF : human breast cancer tissue,
Species Specificity: human	

Background Information

TNF, as also known as TNF-alpha, or cachectin, is a multifunctional proinflammatory cytokine that belongs to the tumor necrosis factor (TNF) superfamily. It is expressed as a 26 kDa membrane bound protein and is then cleaved by TNF-alpha converting enzyme (TACE) to release the soluble 17 kDa monomer, which forms homotrimers in circulation. It is produced chiefly by activated macrophages, although it can be produced by many other cell types such as CD4+ lymphocytes, NK cells, neutrophils, mast cells, eosinophils, and neurons. It can bind to, and thus functions through its receptors TNFRSF1A/TNFR1 and TNFRSF1B/TNFR2. This cytokine is involved in the regulation of a wide spectrum of biological processes including cell proliferation, differentiation, apoptosis, lipid metabolism, and coagulation. This cytokine has been implicated in a variety of diseases, including autoimmune diseases, INS resistance, and cancer. The antibody is conjugated with CL488, Ex/Em 488 nm/515 nm.

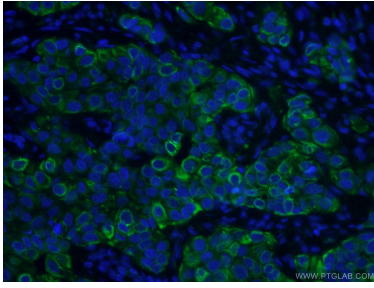

Storage

Storage:
Store at -20°C. Avoid exposure to light. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunofluorescent analysis of (4% PFA) fixed human breast cancer tissue using CL488-60291 (TNF alpha antibody) at dilution of 1:50.

Immunofluorescent analysis of (4% PFA) fixed human breast cancer tissue using CL488-60291 (TNF alpha antibody) at dilution of 1:50.
