For Research Use Only

CoraLite®594-conjugated CIRBP Polyclonal antibody Catalog Number:CL594-10209 Featured Product

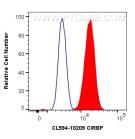

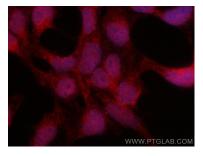

Basic Information	Catalog Number: CL594-10209	GenBank Accession Number: BC 000403	Purification Method: Antigen affinity purification
		GenelD (NCBI):	Recommended Dilutions: IF/ICC 1:50-1:500
		UNIPROT ID: Q14011 Full Name: cold inducible RNA binding protei Calculated MW: 172 aa, 19 kDa Observed MW: 19 kDa	Excitation/Emission maxima wavelengths: 588 nm / 604 nm
Applications	Tested Applications: IF/ICC, FC (Intra) Species Specificity: human, mouse, rat	Positive Controls: IF/ICC : HEK-293 cells,	
Background Information	CIRBP, also named as A18HNRNP and CIRP, is a cold-inducible mRNA binding protein that plays a protective role in the genotoxic stress response by stabilizing transcripts of genes involved in cell survival[PMID: 19158277]. CIRBP is also involved in cap-independent translation upon moderate cold-shock. It acts as a translational activator. CIRBP is a suppressive rather stimulatory effect on proliferation[PMID: 1977567]. CIRBP can translocate from nucleus to cytoplasm under stresses such as UV irradation or heat shock. Suppression of CIRBP increased the apoptotic cell population of neural stem cells at moderate low temperature[PMID: 20735994]. This antibody (Catalog# 10209-2-AP) is a rabbit polyclonal antibody raised against the full-length CIRBP of human origin.		
Storage	Storage: Store at -20°C. Avoid exposure to light. Stable for one year after shipment. Storage Buffer: PBS with 50% Glycerol, 0.05% Proclin300, 0.5% BSA, pH 7.3. Aliquoting is unnecessary for -20°C storage		

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1X10^{^6} A549 cells were intracellularly stained with 0.8 ug Coralite®594 Anti-Human ClRBP (CL594-10209) (red), or 0.8 ug Control Antibody. Cells were fixed and permeabilized with Transcription Factor Staining Buffer Kit (PF00011). Immunofluorescent analysis of (4% PFA) fixed HEK-293 cells using CoraLite®594 CIRBP antibody (CL594-10209) at dilution of 1:200.
