NeutraControl IL-6 Monoklonaler Antikörper

Katalog-Nr.: 69501-1-Ig **1 Publikationen**

Allgemeine Informationen

Katalog-Nr.: 69501-1-Ig	GenBank-Zugangsnummer: GeneID (NCBI): 3569	Reinigungsmethode: Protein-G-Reinigung
Größe: 100ug	Vollständiger Name: interleukin 6 (interferon, beta 2)	CloneNo.: 1E9B8
Wirt: Maus		
Isotyp: IgG1		
Immunogen Katalognummer: HZ-1019		

Anwendungen

Geprüfte Anwendungen:
Non-Neutralization, ELISA

In Publikationen genannte Anwendungen:
ELISA

Getestete Reaktivität:
Human

Zitierte Arten:
Human

Hintergrundinformationen

Interleukin-6 (IL-6) is an interleukin that acts as both a pro-inflammatory and anti-inflammatory cytokine. IL-6 protein is secreted by a variety of cell types including T cells and macrophages as phosphorylated and variably glycosylated molecule. IL-6 plays an essential role in the final differentiation of B-cells into Ig-secreting cells involved in lymphocyte and monocyte differentiation. It induces myeloma and plasmacytoma growth and induces nerve cells differentiation. Acts on B-cells, T-cells, hepatocytes, hematopoietic progenitor cells and cells of the CNS. IL-6 is also considered a myokine, a cytokine produced from muscle, and is elevated in response to muscle contraction. IL-6 has been shown to interact with interleukin-6 receptor and glycoprotein 130. Additionally, IL-6 is involved in hematopoiesis, bone metabolism, and cancer progression, and has been defined an essential role in directing transition from innate to acquired immunity.

This antibody is a neutralizing control antibody for IL-6, the immunogen is the same as Neutrakine 69001-1-Ig but could not neutralize human IL-6.

Lagerung

Lagerungsbedingungen:
Lyophilisierte Antikörper sind bei Lagerung zwischen (-20°C) und (-80°C) 1 Jahr ab Empfangsdatum stabil. Bei Rekonstitution empfehlen wir, die Lösung kurzfristig bei (4°C) oder langfristig bei (-20°C) bis (-80°C). Rekonstituierte Produkte sollten nicht wiederholt eingefroren und wieder aufgetaut werden.

Lagerungspuffer:
Sterile PBS.

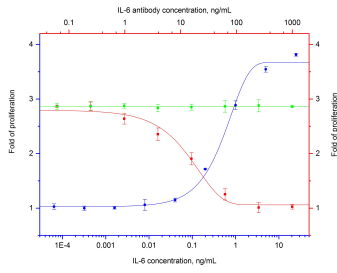

Aliquotieren ist nicht notwendig bei -20°C Lagerung

***** 20ul-Größen enthalten 0.1% BSA**

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Ausgewählte Validierungsdaten

Recombinant human IL-6 (Cat.NO. HZ-1019) stimulates proliferation of hybridoma (Proteintech mouse anti-GST clone 3G12B10) in a dose-dependent manner (blue curve, refer to bottom X-left Y axis). The activity of human IL-6 (1 ng/mL HZ-1019) is neutralized by mouse anti-human IL-6 monoclonal antibody 69001-1-Ig at serial dose (red curve, refer to top X-right Y axis). The ND50 is typically 10-30 ng/mL. The NeutraControl mouse anti-human IL-6 monoclonal antibody 69501-1-Ig could

Indirect ELISA was carried out by coating recombinant Human IL-6 (Cat.NO. HZ-1019) at 70 ng/well followed by blocking and adding serial diluted IL-6 antibody 69001-1-Ig and 69501-1-Ig respectively. Signal was developed with TMB and stopped by H2SO4. Signal strength was measured by absorbance at 450 nm.
