# NeutraControl IL-10 Monoklonaler Antikörper

Katalog-Nr.: 69518-1-Ig

## Allgemeine Informationen

Katalog-Nr.:	GenBank-Zugangsnummer:
69518-1-Ig	GenID (NCBI):
Größe:	3586
100ug	Vollständiger Name:
Wirt:	interleukin 10
Maus	
Isotyp:	
IgG1	
Immunogen Katalognummer:	
HZ-1145	

Reinigungsmethode:  
Protein-G-Reinigung  
CloneNo.:  
6C6E6

## Anwendungen

Geprüfte Anwendungen:  
Non-Neutralization, ELISA

Getestete Reaktivität:  
Human

## Hintergrundinformationen

The human IL10 gene is 4.7 kb in size and is located on the long arm of chromosome 1. It contains five exons. Biologically functional IL-10 exists in the form of a 36 kDa homodimer composed of two non-covalently bonded mono-mers each with 160 amino acids length. IL-10 is an anti-inflammatory cytokine, produced by T helper (Th) cells, macrophages, monocytes, and B cells, that plays a crucial role in preventing inflammatory and autoimmune pathologies. It downregulates the expression of Th1 cytokines, MHC class II antigens, and co-stimulatory molecules on macrophages. It also enhances B cell survival, proliferation, and antibody production. IL-10 can block NF-κB activity, and is involved in the regulation of the JAK-STAT signaling pathway. IL-10, along with its receptors, describes an important role in pathogenesis of various diseases, including infectious, inflammatory, autoimmune diseases. IL-10 mutations are associated with an increased susceptibility to HIV-1 infection and rheumatoid arthritis.

This antibody is a neutralizing control antibody for IL-10, the immunogen is the same as Neutrakine 69018-1-Ig but could not neutralize human IL-10.

## Lagerung

Lagerungsbedingungen:  
Lyophilisierte Antikörper sind bei Lagerung zwischen (-20°C) und (-80°C) 1 Jahr ab Empfangsdatum stabil. Bei Rekonstitution empfehlen wir, die Lösung kurzfristig bei (4°C) oder langfristig bei (-20°C) bis (-80°C). Rekonstituierte Produkte sollten nicht wiederholt eingefroren und wieder aufgetaut werden.

Lagerungspuffer:  
Sterile PBS.

Aliquotieren ist nicht notwendig bei -20°C Lagerung

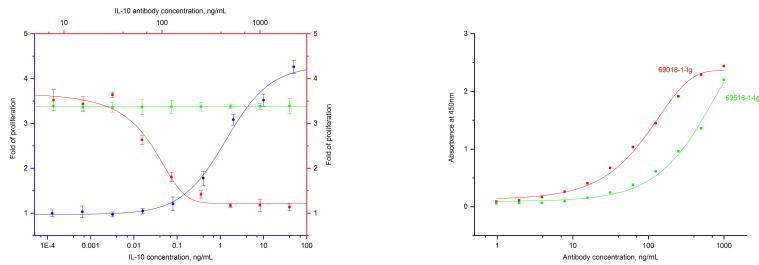

\*\*\* 20ul-Größen enthalten 0.1% BSA

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Ausgewählte Validierungsdaten

Recombinant human IL-10 (Cat.NO. HZ-1145) stimulates proliferation of MC/9 cells (mouse mast cell line) in a dose-dependent manner (blue curve, refer to bottom X-left Y axis). The activity of human IL-10 (10 ng/mL) is neutralized by mouse anti-human IL-10 monoclonal antibody 69018-1-Ig at serial dose (red curve, refer to top X-right Y axis). The ND<sub>50</sub> is typically 50-200 ng/mL. The NeutraControl mouse anti-human IL-10 monoclonal antibody 69518-1-Ig could

Indirect ELISA was carried out by coating recombinant Human IL-10 (Cat.NO. HZ-1145) at 70 ng/well followed by blocking and adding serial diluted IL-10 antibody 69018-1-Ig and 69518-1-Ig respectively. Signal was developed with TMB and stopped by H<sub>2</sub>SO<sub>4</sub>. Signal strength was measured by absorbance at 450 nm.
