20 Publications

Informations de base

Numéro de catalogue:	BC014353	Méthode de purification:
11157-1-AP	Identification du gène (NCBI):	Purification par affinité contre l'antigène
Taille:	3925	Dilutions recommandées:
150ul, Concentration: 750 µg/ml by Nanodrop;	Nom complet:	WB 1:1000-1:4000
Hôte:	stathmin 1/oncoprotein 18	IHC 1:50-1:500
Lapin	MW calculé	
Isotype:	18 kDa	
IgG	MW observés:	
Immunogen Catalog Number:	18 kDa	
AG1633		

Applications

Applications testées:	Contrôles positifs:
FC, IHC, WB, ELISA	WB : cellules Jurkat, cellules PC-12
Demandes citées:	IHC : tissu de gliome humain, tissu de lymphome humain
IF, IHC, WB	
Spécificité de l'espèce:	
Humain	
Espèces citées:	
Humain, rat, souris	
Remarque-IHC: il est suggéré de démasquer l'antigène avec un tampon de TE buffer pH 9,0; (*) À défaut, le démasquage de l'antigène peut être effectué avec un tampon citrate pH 6,0.	

Informations générales

Stathmin 1 (STMN1) normally regulates microtubule dynamics either by sequestering free tubulin heterodimers or by promoting microtubule catastrophe. STMN1 is highly expressed in fetal and adult brain, spinal cord, and cerebellum. Many different phosphorylated forms are observed depending on specific combinations among the sites which can be phosphorylated. Phosphorylation of stathmin is involved in response to NGF, neuron polarization and microtubule polymerization inhibition activity. Increased expression of STMN1 has been observed in a variety of human malignancies, such as colorectal primary tumors and metastatic tissues, but its association with melanoma is so far not well known.

Stockage

Stockage:

Stocker à -20°C. Stable pendant un an après l'expédition.

Tampon de stockage:

PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3

L'aliquotage n'est pas nécessaire pour le stockage à -20C

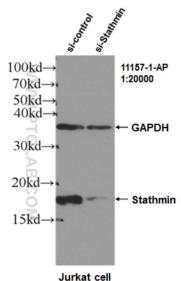

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

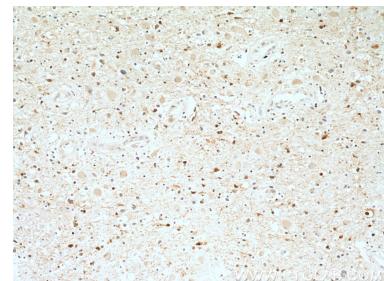

Données de validation sélectionnées

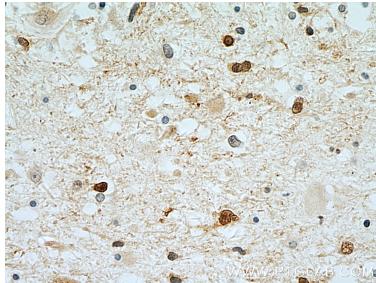

WB results of Stathmin antibody (11157-1-AP, 1:20000) with si-control and si-Stathmin transfected Jurkat cells..

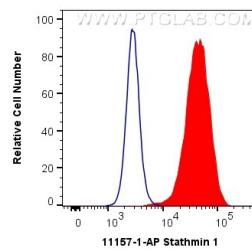

Various lysates were subjected to SDS PAGE followed by western blot with 11157-1-AP (Stathmin 1 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffin-embedded human gliomas tissue slide using 11157-1-AP (Stathmin 1 antibody at dilution of 1:50 (under 10x lens).

Immunohistochemical analysis of paraffin-embedded human gliomas using 11157-1-AP (Stathmin 1 antibody) at dilution of 1:50 (under 10x lens).

1X10⁶ HeLa cells were intracellularly stained with 0.4 ug Anti-Human Stathmin 1 (11157-1-AP) and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) at dilution 1:1000 (red), or 0.4 ug Control Antibody. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
