37 Publications

Informations de base

Numéro de catalogue:	BC004974	Méthode de purification:
15274-1-AP		Purification par affinité contre l'antigène
Taille:	6678	Dilutions recommandées:
1500 μl, Concentration: 400 μg/ml by Nanodrop;		WB 1:500-1:1000 IHC 1:1000-1:4000
Hôte:	secreted protein, acidic, cysteine-rich (osteonectin)	
Lapin		
Isotype:	MW calculé	
IgG	35 kDa	
Immunogen Catalog Number:	MW observés:	
AG7390	43 kDa	

Applications

Applications testées:	Contrôles positifs:
IHC, WB, ELISA	WB: cellules ROS1728, cellules A375, tissu placentaire humain, tissu testiculaire humain
Demandes citées:	IHC : tissu de cancer de l'estomac humain,
ColP, IF, IHC, WB	
Spécificité de l'espèce:	
Humain, porc, rat, souris	
Espèces citées:	
Humain, rat, souris, cerf Sika	
Remarque-IHC: il est suggéré de démasquer l'antigène avec un tampon de TE buffer pH 9,0; (*) À défaut, le démasquage de l'antigène peut être effectué avec un tampon citrate pH 6,0.	

Informations générales

SPARC, also known as ON (Osteonectin) or BM-40 (Basement-membrane protein 40), is an extracellular glycoprotein with the calculated molecular mass of 35 kDa and the apparent molecular mass of 40-43 kDa and 50 kDa (PMID: 7495300, 12365801). SPARC belongs to a group of matricellular proteins defined as secreted components that do not contribute directly to the formation of structural elements but serve to modulate cell-matrix interactions and cellular functions (PMID: 7542656; 12231357). SPARC is expressed at high levels in bone tissue, is distributed widely in many other tissues and cell types, and is associated generally with tissues undergoing morphogenesis, remodeling and wound repair (PMID: 10567433). It elicits changes in cell shape, inhibits cell-cycle progression, and influences the synthesis of extracellular matrix (PMID: 12721366). Altered expression of SPARC has been reported in a variety of cancers, which include breast, ovarian, colorectal, and pancreatic cancer as well as melanoma and glioblastomas (PMID: 18849185).

Stockage

Stockage:

Stocker à -20°C. Stable pendant un an après l'expédition.

Tampon de stockage:

PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3

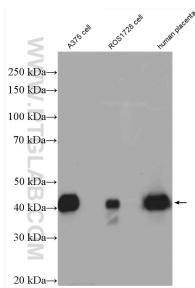

L'aliquotage n'est pas nécessaire pour le stockage à -20°C

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

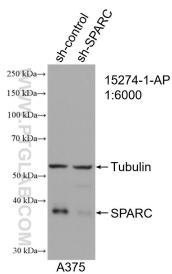

Données de validation sélectionnées

A375 cells, ROS1728 cells, and human placenta tissue were subjected to SDS PAGE followed by western blot with 15274-1-AP (SPARC antibody) at dilution of 1:600 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffin-embedded human stomach cancer tissue slide using 15274-1-AP (SPARC antibody) at dilution of 1:2000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

WB result of SPARC antibody (15274-1-AP; 1:4000; incubated at room temperature for 1.5 hours) with sh-Control and sh-SPARC transfected A375 cells.
