Anticorps Polyclonal de lapin anti-DISC1-long-specific

Numéro de catalogue: 15500-1-AP

1 Publications

Informations de base

Numéro de catalogue:	15500-1-AP	Numéro d'acquisition GenBank:	NM_018662	Méthode de purification:
Taille:	150ul , Concentration: 600 µg/ml by Nanodrop and 400 µg/ml by Bradford method using BSA as the standard;	Identification du gène (NCBI):	27185	Purification par affinité contre l'antigène
Hôte:	Lapin	Nom complet:	disrupted in schizophrenia 1	Dilutions recommandées:
Isotype:	IgG	MW calculé	95 kDa	IHC 1:20-1:200 IF 1:20-1:200

Applications

Applications testées:	IF, IHC, ELISA	Contrôles positifs:
Demandes citées:	WB	IHC : tissu cérébral humain, IF : cellules MDCK,

Spécificité de l'espèce:

Humain, souris

Espèces citées:

souris

Remarque-IHC: *il est suggéré de démasquer l'antigène avec un tampon de TE buffer pH 9,0; (*) À défaut, le démasquage de l'antigène peut être effectué avec un tampon citrate pH 6,0.*

Informations générales

DISC1, also named as KIAA0457, is identified as the sole gene whose ORF is truncated and cosegregates with major mental illnesses in a Scottish family. DISC1 may be implicated in psychiatric conditions in other populations than the unique Scottish family. It is involved in the regulation of multiple aspects of embryonic and adult neurogenesis. DISC1 is required for neural progenitor proliferation in the ventricular/subventricular zone during embryonic brain development and in the adult dentate gyrus of the hippocampus. It plays a role, together with PCNT, in the microtubule network formation. In WB, DISC1 has some MW such as 34kd(PMID:18620078);75-85kd and 95-100kd(PMID:15657124). DISC1 isoforms have distinct developmental patterns of expression. This antibody is against C-terminal of DISC1, binding full length protein specifically.

Stockage

Stockage:

Stocker à -20°C. Stable pendant un an après l'expédition.

Tampon de stockage:

PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3

L'aliquotage n'est pas nécessaire pour le stockage à -20°C

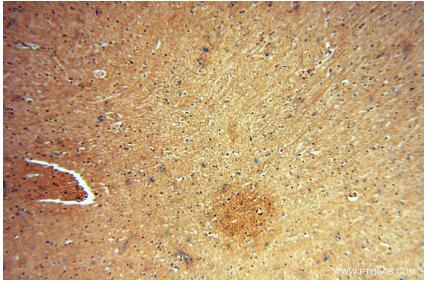

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

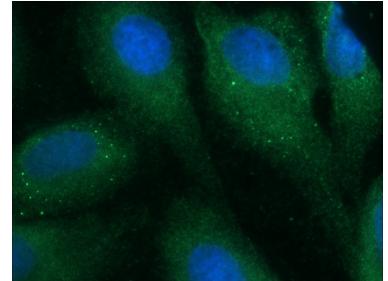

Données de validation sélectionnées

Immunohistochemical analysis of paraffin-embedded human brain using 15500-1-AP (DISC1-long-specific antibody) at dilution of 1:50 (under 10x lens).

Immunohistochemical analysis of paraffin-embedded human brain using 15500-1-AP (DISC1-long-specific antibody) at dilution of 1:50 (under 40x lens).

Immunofluorescent analysis of MDCK cells using 15500-1-AP (DISC1-long-specific antibody) at dilution of 1:50 and Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
