Anticorps Polyclonal de lapin anti-E-selectin / CD62E

Numéro de catalogue: 20894-1-AP 36 Publications

Informations de base

| | | |
|-----------------------------------------------|--------------------------------|---------------------------------------------|
| Numéro de catalogue: | BC142711 | Méthode de purification: |
| 20894-1-AP | | Purification par affinité contre l'antigène |
| Taille: | Identification du gène (NCBI): | Dilutions recommandées: |
| 150ul , Concentration: 350 µg/ml by Nanodrop; | 6401 | IHC 1:2000-1:8000 |
| Hôte: | Nom complet: | |
| Lapin | selectin E | |
| Isotype: | MW calculé | |
| IgG | 610 aa, 67 kDa | |
| Immunogen Catalog Number: | | |
| AG14944 | | |

Applications

| | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| Applications testées: | Contrôles positifs: |
| FC, IHC, ELISA | |
| Demandes citées: | IHC : tissu d'amygdale humaine, tissu d'appendicite humaine |
| IF, IHC, WB | |
| Spécificité de l'espèce: | |
| Humain | |
| Espèces citées: | |
| Humain | |
| Remarque-IHC: il est suggéré de démasquer l'antigène avec un tampon de TE buffer pH 9,0; (*) À défaut, le démasquage de l'antigène peut être effectué avec un tampon citrate pH 6,0. | |

Informations générales

E-selectin, also known as ELAM-1 or CD62E, is a member of the selectin family of adhesion molecules that also includes L-selectin and P-selectin. E-selectin is an inducible endothelial cell surface molecule. Its expression on endothelial cells is transcriptionally upregulated by various proinflammatory substances such as IL-1, TNFα and lipopolysaccharide (LPS). Besides, it can be secreted by endothelial cells, and can be detected in a soluble form (sE-selectin) in serum. During inflammation, E-selectin plays an important part in recruiting leukocytes to the site of injury. (PMID: 2827173; 1382417; 8943958)

Stockage

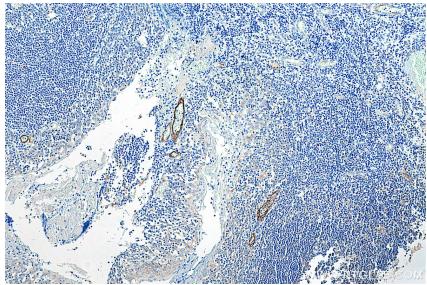

Stockage:
Stocker à -20°C. Stable pendant un an après l'expédition.
Tampon de stockage:
PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3
L'aliquotage n'est pas nécessaire pour le stockage à -20C

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

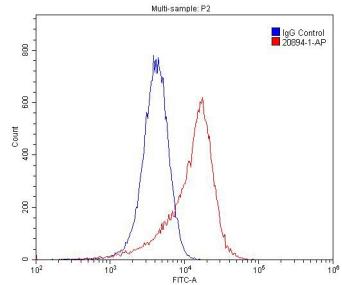

Données de validation sélectionnées

Immunohistochemical analysis of paraffin-embedded human tonsillitis tissue slide using 20894-1-AP (E-selectin / CD62E antibody) at dilution of 1:4000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffin-embedded human tonsillitis tissue slide using 20894-1-AP (E-selectin / CD62E antibody) at dilution of 1:4000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

1X10⁶ HUVEC cells were stained with 0.2ug E-selectin / CD62E antibody (20894-1-AP, red) and control antibody (blue). Fixed with 4% PFA blocked with 3% BSA (30 min). Alexa Fluor 488-conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) with dilution 1:1500.
