Anticorps Polyclonal de lapin anti- Phospho-CREB1 (Ser133)

Numéro de catalogue: 28792-1-AP

7 Publications

Informations de base

Numéro de catalogue:	BC010636	Méthode de purification:
28792-1-AP	Identification du gène (NCBI):	Purification par affinité contre l'antigène
Taille:	1385	Dilutions recommandées:
100ul , Concentration: 200 µg/ml by Nanodrop;	Nom complet:	WB 1:1000-1:8000
Hôte:	cAMP responsive element binding protein 1	IHC 1:50-1:500
Lapin	MW calculé	
Isotype:	341 aa, 35 kDa	
IgG	MW observés:	
	35-46 kDa	

Applications

Applications testées:	Contrôles positifs:
IHC, WB, ELISA	WB: cellules HSC-T6 traitées à la forskoline,
Demandes citées:	IHC : tissu hépatique humain,
WB	
Spécificité de l'espèce:	
Humain, rat	
Espèces citées:	
Humain, souris	
Remarque-IHC: il est suggéré de démasquer l'antigène avec un tampon de TE buffer pH 9,0; (*) À défaut, le démasquage de l'antigène peut être effectué avec un tampon citrate pH 6,0.	

Informations générales

The cAMP-response element binding protein (CREB) is localized in the nucleus and acts as a transcription factor, which binds to the cAMP response element (CRE) of the promoters of its target genes, upon phosphorylation at Ser133 by different receptor-activated protein kinases, such as protein kinase A (PKA), calmodulin-dependent protein kinase (CaMK), mitogen-activated protein kinases (MAPK), and other kinases. The activity of CREB1 in neurons has been correlated with various intracellular processes, including proliferation, differentiation, survival, long-term synaptic potentiation, neurogenesis, and neuronal plasticity. CREB1 belongs to the CREB/activating transcription factor (ATF) family of transcription factors. The antibody also detects the phosphorylated form of the CREB-related protein ATF1. (PMID: 30214393, PMID: 33917483, PMID: 32605164)

Stockage

Stockage:

Stocker à -20°C. Stable pendant un an après l'expédition.

Tampon de stockage:

PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3

L'aliquotage n'est pas nécessaire pour le stockage à -20°C

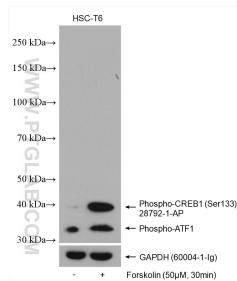

*** Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Données de validation sélectionnées

Non-treated and Forskolin treated HSC-T6 cells were subjected to SDS PAGE followed by western blot with 28792-1-AP (Phospho-CREB1 (Ser133) antibody) at dilution of 1:4000 incubated at room temperature for 1 hours. The membrane was stripped and re-blotted with GAPDH antibody as loading control.

Immunohistochemical analysis of paraffin-embedded human liver tissue slide using 28792-1-AP (Phospho-CREB1 (Ser133) antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
