# Anticorps Monoclonal anti-PDCD2L

Numéro de catalogue: 68249-1-Ig

## Informations de base

|                           |   |                                |                              |                          |                             |
|---------------------------|---|--------------------------------|------------------------------|--------------------------|-----------------------------|
| Numéro de catalogue:      | 68249-1-Ig                                    | Numéro d'acquisition GenBank:  | BC006146                     | Méthode de purification: | Purification par protéine G |
| Taille:                   | 150ul, Concentration: 1000 µg/ml by Nanodrop; | Identification du gène (NCBI): | 84306                        | CloneNo.:                | 2G12C4                      |
| Hôte:                     | Mouse   | Nom complet:                   | programmed cell death 2-like | Dilutions recommandées:  | WB 1:5000-1:50000           |
| Isotype:                  | IgG1  | MW calculé:                    | 358 aa, 39 kDa               |                          |                             |
| Immunogen Catalog Number: | AG30807                                       | MW observés:                   | 39 kDa                       |                          |                             |

## Applications

Applications testées:  
WB, ELISA  
Spécificité de l'espèce:  
Humain

Contrôles positifs:

WB : cellules A549, cellules HCT 116, cellules HeLa, cellules HepG2, cellules K-562, cellules LNCaP

## Informations générales

PDCD2L was aberrantly expressed in multiple types of human cancers, and associated with clinical stage and molecular subtype and PDCD2L could be served as a biomarker of CRC (PMID: 35216602).

## Stockage

Stockage:  
Stocker à -20°C. Stable pendant un an après l'expédition.  
Tampon de stockage:  
PBS avec azoture de sodium à 0,02 % et glycérol à 50 % pH 7,3  
L'aliquotage n'est pas nécessaire pour le stockage à -20C

\*\*\* Les 20ul contiennent 0,1% de BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Données de validation sélectionnées

A549 cells were subjected to SDS PAGE followed by western blot with 68249-1-Ig (PDCD2L antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. The membrane was stripped and reblotted with HRP-conjugated GAPDH Monoclonal antibody (HRP-60004) as loading control.

Various lysates were subjected to SDS PAGE followed by western blot with 68249-1-Ig (PDCD2L antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours.
