Anticorps Monoclonal anti-CD13

Numéro de catalogue:**FITC-65186**

Informations de base

Numéro de catalogue:	BC058928	Méthode de purification:
FITC-65186	L'anticorps purifié est conjugué à l'isothiocyanate de fluorescéine (FITC) dans des conditions optimales.	
Taille:	290	Le conjugué est purifié par chromatographie d'exclusion de taille.
100 tests, 5 µl/test	Nom complet:	
Hôte:	alanyl (membrane) aminopeptidase	
Mouse	MW calculé	
Isotype:	110 kDa	
IgG1, kappa	CloneNo.:	WM15
	Excitation/Emission maxima wavelengths:	495 nm / 524 nm

Applications

Applications testées:

FC

Spécificité de l'espèce:

Humain, primates non humains

Informations générales

CD13, also named as APN, ANPEP (aminopeptidase N) or PEPN, is a heavily glycosylated, ~150-240 kDa, type-II membrane, expressed by most cells of myeloid origin including monocytes, macrophages, granulocytes, and their hematopoietic precursors. It is also abundantly expressed in the brush border of epithelial cells from renal proximal tubules and small intestine, in prostatic epithelial cells, in bile duct canaliculi, in mast cells, and, in some cases, in fibroblasts and smooth muscle cells. CD13 is a multifunctional protein and plays varying roles in cell migration, cell proliferation, cell differentiation and so on. CD13 participates in angiogenesis generating and modulating angiogenic signals, and can be a marker of angiogenic vessels. CD13 is also a pan-myeloid marker, present on mature granulocytes and monocytes. (PMID: 8805662, 10098327, 18603472, 18097955, 17897790, 17888402, 21339174)

Stockage

Stockage:

Store at 2-8°C. Avoid exposure to light. Stable for one year after shipment.

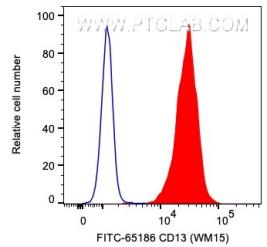

Tampon de stockage:

PBS with 0.09% sodium azide and 0.5% BSA.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Données de validation sélectionnées

1×10^6 human PBMCs were surface stained with 5 μ l FITC Anti-Human CD13 (FITC-65186, Clone:WM15) (red) or unstained. Cells were not fixed. Granulocytes were gated.
