RAMP1 Polyclonal antibody Catalog Number: 10327-1-AP 4 Publications

	Catalog Number: 10327-1-AP	GenBank Accession Number: BC000548	Purification Method: Antigen affinity purification	
	Size: 150ul , Concentration: 547 ug/ml by Bradford method using BSA as the standard;	GenelD (NCBI):	Recommended Dilutions: WB 1:500-1:3000	
				UNIPROT ID: IHC 1:50-1:500 060894
		Source: Rabbit	Full Name: receptor (G protein-coupled) activity	
	Isotype:	modifying protein 1 Calculated MW:		
	IgG Immunogen Catalog Number: AG0402			
		17 kDa		
		Observed MW: 14 kDa, 33-35 kDa		
	Applications	Tested Applications:	Positive Controls: WB : mouse heart tissue, human heart tissue, mouse stomach tissue, rat heart tissue	
WB, IHC, ELISA Cited Applications:				
WB IHC IF		small intestine tissue,		
Species Specificity: human, mouse, rat		inc . nondrishett intestine tissue,		
Cited Species: human, rat				
Note-IHC: suggested antigen (TE buffer pH 9.0; (*) Alternati retrieval may be performed w		vely, antigen		
	buffer pH 6.0			
Background Information	RAMP1 (receptor-activity-modifying proteins which consist of an N-termin terminal tail. RAMPs are required to CRLR, a G protein-coupled receptor, c adrenomedullin receptor, depending CRLR to the plasma membrane and th receptor, while RAMP2 and RAMP3 tra	al extracellular domain, a transmem transport calcitonin-receptor-like rece an function as either a calcitonin gene on which members of the RAMP fami hen remains associated with it to func ansfer the CRLR to the cell surface to g L can form a homodimer which migrat	ptor (CRLR) to the plasma membrane. e-related peptide (CGRP) receptor or an ly are expressed. RAMP1 transports the tion as a terminally glycosylated CGR enerate receptors that are preferential	
	RAMP1 (receptor-activity-modifying proteins which consist of an N-termin terminal tail. RAMPs are required to CRLR, a G protein-coupled receptor, c adrenomedullin receptor, depending CRLR to the plasma membrane and the receptor, while RAMP2 and RAMP3 tr selective for adrenomedullin. Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 10327-1-AP (RAMP1 antibody) at dilution of 1:1500 incubated at room temperature for 1.5 hours.

Various lysates were subjected to SDS PAGE followed by western blot with 10327-1-AP (RAMP1 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffinembedded human small intestine tissue slide using 10327-1-AP (RAMP1 Antibody) at dilution of 1:200 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human small intestine tissue slide using 10327-1-AP (RAMP1 Antibody) at dilution of 1:200 (under 40x lens).
