For Research Use Only

COMMD5 Polyclonal antibody

Catalog Number:10393-1-AP

Featured Product

10 Publications

Basic Information	Catalog Number: 10393-1-AP	GenBank Accession BC003055	Number:	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI): 28991		Recommended Dilutions: WB 1:500-1:2000 IP 0.5-4.0 ug for 1.0-3.0 mg of total protein lysate IF/ICC 1:50-1:500	
	150ul , Concentration: 700 ug/ml by				
	Nanodrop and 340 ug/ml by Bradford method using BSA as the standard;				
	Source: Rabbit				
	Isotype: IgG	Calculated MW: 25 kDa	0		
	Immunogen Catalog Number: AG0592	Observed MW: 25 kDa			
Applications	Tested Applications:		Positive Co	ntrols:	
	WB, IF/ICC, IP, ELISA	WD: mouse		e kidney tissue, human heart tissue, humar	
	Cited Applications: WB, IHC, IF, CoIP		stomach tissue, mouse stomach tissue, mouse heart tissue, HEK-293 cells, MCF-7 cells, human placenta tissue		
	Species Specificity:				
	human, mouse		IP : mouse h	neart tissue,	
Rackground Informatio	Cited Species: human, mouse	05, synonyms: HCARG	IF/ICC : HeL		
Background Informatio	 human, mouse COMM domain containing 5 (COMME gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissi jejunum, kidney (tubular fraction), liv more expressed in adult than in fetal COMMD5 protein has no transmembric 	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -heli»	pertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines. « content, a calcium-binding site, four	
	 human, mouse COMM domain containing 5 (COMMD gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissi jejunum, kidney (tubular fraction), liv more expressed in adult than in fetal COMMD5 protein has no transmembr putative "leucine zipper" motifs, and nuclear localization. 	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -helix nding domain.	pertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines.	
	 human, mouse COMM domain containing 5 (COMML gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissu jejunum, kidney (tubular fraction), lin more expressed in adult than in fetal COMMD5 protein has no transmembr putative "leucine zipper" motifs, and nuclear localization. 	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta a nuclear receptor-bi	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -helix nding domain.	rpertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines. K content, a calcium-binding site, four At the subcellular level, COMMD5 shows	
	human, mouse COMM domain containing 5 (COMME gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissi jejunum, kidney (tubular fraction), limmore expressed in adult than in fetal COMMD5 protein has no transmembr putative "leucine zipper" motifs, and nuclear localization. Author Put Hiroyuki Matsuda	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta a nuclear receptor-bi omed ID Jour 221141 J Am	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -heli» nding domain.	rpertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines. ex content, a calcium-binding site, four At the subcellular level, COMMD5 shows	
	human, mouse n COMM domain containing 5 (COMMD gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissi jejunum, kidney (tubular fraction), lix more expressed in adult than in fetal COMMD5 protein has no transmembr putative "leucine zipper" motifs, and nuclear localization. Author Put Hiroyuki Matsuda Chen Bai-Li BL 189	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta a nuclear receptor-bi pmed ID Jour 121141 J Am 149406 Onco	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -heli> nding domain. mal n Soc Nephrol	Appertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines. ex content, a calcium-binding site, four At the subcellular level, COMMD5 shows Application IHC	
Notable Publications	human, mouse COMM domain containing 5 (COMMD gene. COMMD5 is negatively regulat higher in hypertensive animals. Tissi jejunum, kidney (tubular fraction), lix more expressed in adult than in fetal COMMD5 protein has no transmembr putative "leucine zipper" motifs, and nuclear localization. Author Put Hiroyuki Matsuda Author Put Hiroyuki Matsuda Chen Bai-Li BL 189 Hiroyuki Matsuda 290 Storage: Storage: Store at -20°C. Stable for one year after	ed by extracellular ca ue distribution of CON ver, and adrenal glanc organs, and its levels ane domain, but conta a nuclear receptor-bi per dID Jour 121141 J Am 149406 Onco 150225 Onco	, HT002) is a hy alcium concentr MMD5 shows a p d (mainly in the s are decreased ains 67% -heli» nding domain. mal n Soc Nephrol ol Rep	rpertension-related calcium-regulated ration, and its basal mRNA levels were preponderance in the heart, stomach, e medulla). COMMD5 mRNA is significant in tumors and cancerous cell lines. « content, a calcium-binding site, four At the subcellular level, COMMD5 shows At the subcellular level, COMMD5 shows IHC

For technical support and original validation data for this product please contact:T: 1 (888) 4PTGLAB (1-888-478-4522) (toll freeE: proteintech@ptglab.comin USA), or 1(312) 455-8498 (outside USA)W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

mouse kidney tissue were subjected to SDS PAGE followed by western blot with 10393-1-AP (COMMD5 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. IP result of anti-COMMD5 (IP:10393-1-AP, 4ug; Detection:10393-1-AP 1:500) with mouse heart tissue lysate 3200ug.

Immunofluorescent analysis of (4% PFA) fixed HeLa cells using 10393-1-AP (COMMD5 antibody) at dilution of 1:50 and Alexa Fluor 488-Conjugated Goat Anti-Rabbit IgG(H+L).
