## TIMP1 Polyclonal antibody

Catalog Number:10753-1-AP 36 Publications

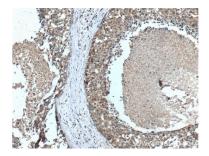

Basic Information	Catalog Number: 10753-1-AP	GenBank Accession Number: BC007097	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 413 µg/ml by	7076	IHC: 1:50-1:500	
	Bradford method using BSA as the standard;	UNIPROT ID:	IF/ICC: 1:50-1:500	
	Source:	P01033 Full Name:		
	Rabbit	TIMP metallopeptidase inhibitor	1	
	lsotype:	Calculated MW:		
	IgG	23 kDa		
	Immunogen Catalog Number: AG1146			
Applications	Tested Applications:	Positive Controls:		
			human breast cancer tissue,	
	Cited Applications: IHC, IF	IF/ICC : HepG2 cells,		
	Species Specificity: human			
	Cited Species: human, mouse, rat			
	Note-IHC: suggested antigen ı TE buffer pH 9.0; (*) Alternati retrieval may be performed w buffer pH 6.0	vely, antigen		
Background Information	TE buffer pH 9.0; (*) Alternati retrieval may be performed w buffer pH 6.0 Tissue Inhibitor of Metalloproteinase the activity of matrix metalloprotein protein. Overexpression of TIMP1 can and signal transduction. In addition, by activation of downstream pathwa	vely, antigen with citrate es-1 (TIMP1) is a naturally occurring bases (MMPs). TIMP1 encodes a 931 in lead to a substantially increase o TIMP1 was found to decrease tumo ys and exhibited anti-apoptotic act	g protein in the human organism regulating base-pair mRNA and a 207 amino acid f genes involved in proliferation, apoptosis r cell sensitivity to multiple anticancer drug tivity. Specifically, the TIMP1 could degrade Iccer cells against chemotherapy-induced cel	
	TE buffer pH 9.0; (*) Alternati retrieval may be performed w buffer pH 6.0 Tissue Inhibitor of Metalloproteinasse the activity of matrix metalloprotein protein. Overexpression of TIMP1 can and signal transduction. In addition, by activation of downstream pathwa cyclinB1 and activate the NF-kβ sign death.	vely, antigen with citrate es-1 (TIMP1) is a naturally occurring bases (MMPs). TIMP1 encodes a 931 in lead to a substantially increase o TIMP1 was found to decrease tumo ys and exhibited anti-apoptotic act	base-pair mRNA and a 207 amino acid f genes involved in proliferation, apoptosis r cell sensitivity to multiple anticancer drug tivity. This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 10753-1-AP (TIMP1 Antibody) at dilution of 1:200 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 10753-1-AP (TIMP1 Antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunofluorescent analysis of (-20°C Ethanol) fixed HepG2 cells using 10753-1-AP (TIMP1 antibody) at dilution of 1:50 and Alexa Fluor 488conjugated Goat Anti-Rabbit IgG(H+L).
