For Research Use Only

SCO1 Polyclonal antibody Catalog Number: 12614-1-AP 2 Publications

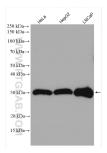

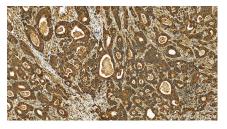

Basic Information	Catalog Number: 12614-1-AP	GenBank Accession Number: BC015504	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 600 ug/ml by	6341	WB 1:500-1:1000	
	Nanodrop and 333 ug/ml by Bradford method using BSA as the standard;	UNIPROT ID:	IHC 1:50-1:500	
		075880		
	Source:	Full Name:		
	Rabbit	SCO cytochrome oxidase deficien	dase deficient	
	Isotype:	homolog 1 (yeast) Calculated MW:		
	IgG			
	Immunogen Catalog Number: AG3269	301 aa, 34 kDa		
		Observed MW:		
		30 kDa		
Applications	Tested Applications:	Positive Controls:		
	WB, IHC, ELISA Cited Applications:	WB: HeLa	WB : HeLa cells, HepG2 cells, LNCaP cells, human heart tissue, human placenta tissue IHC : human stomach cancer tissue,	
		tissue, hun		
	WB, IF, IP	IHC : huma		
	Species Specificity: human			
	Cited Species: human, mouse			
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0			
Background Information	Human SCO1 and SCO2 are metallochaperones that are essential for the assembly of the catalytic core of cytochrome c oxidase (COX). SCO1 appears to be involved in the folding and assembly of cytochrome oxidase subunit II, and possibly of other proteins of this subcompartment. It is a 33 kDa protein which displays limited homology to members of the DnaJ family(PMID:14731768). It is also named as SCOD1 and belongs to the SCO1/2 family. It can exsit as a homodimer(PMID:16735468). Defects in SCO1 are a cause of mitochondrial complex IV deficiency (MT-C4D).			
	homology to members of the DnaJ fa family. It can exsit as a homodimer(P	mily(PMID:14731768). It is also nai	med as SCOD1 and belongs to the SCO1/2

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunohistochemical analysis of paraffinembedded human stomach cancer tissue slide using 12614-1-AP (SCO1 antibody) at dilution of 1:100 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Various lysates were subjected to SDS PAGE followed by western blot with 12614-1-AP (SCO1 antibody) at dilution of 1:800 incubated at room temperature for 1.5 hours.
