

MLLT3/AF9 Polyclonal antibody

Catalog Number: 12825-1-AP

Basic Information

Catalog Number: 12825-1-AP	GenBank Accession Number: BC036089	Purification Method: Antigen affinity purification
Size: 150ul , Concentration: 500 µg/ml by Nanodrop and 400 µg/ml by Bradford method using BSA as the standard;	GeneID (NCBI): 4300	Recommended Dilutions: WB 1:500-1:1000
Source: Rabbit	Full Name: myeloid/lymphoid or mixed-lineage leukemia (trithorax homolog, Drosophila); translocated to, 3	
Isotype: IgG	Calculated MW: 568 aa, 63 kDa	
Immunogen Catalog Number: AG3528	Observed MW: 63-70 kDa	

Applications

Tested Applications: WB, ELISA	Positive Controls: WB : Jurkat cells, HL-60 cells
Species Specificity: human, mouse, rat	

Background Information

MLLT3, also named as AF9, YEATS3, is a 568 amino acid protein, which is a component of the superelongation complex6 and co-operates with DOT1L, which di/trimethylates H3K79 to promote transcription. MLLT3 localizes to active transcription start sites (TSSs) through the YEATS domain, which recognizes active histone marks such as H3K9 acetylation and crotonylation. A truncated MLLT3 that lacks the YEATS domain forms a leukaemic fusion protein with the N terminus of MLL1, which misdirects MLLT3-interacting complexes to induce aberrant gene transcription. MLLT3 also regulates erythroid or megakaryocytic progenitors and was identified as a definitive HSC hub gene during mouse development. Researcher found that the expression of a gene called MLLT3 was closely correlated with blood stem cells' potential to self-renew and that the protein generated by the MLLT3 gene provides blood stem cells with the instructions necessary to maintain its ability to self-renew. It does this by working with other regulatory proteins to keep important parts of the blood stem cell's machinery operational as the cells divide.

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Jurkat cells were subjected to SDS PAGE followed by western blot with 12825-1-AP (MLLT3/AF9 antibody at dilution of 1:600 incubated at room temperature for 1.5 hours.

IP Result of anti-MLLT3/AF9 (IP:12825-1-AP, 4ug; Detection:12825-1-AP 1:300) with Jurkat cells lysate 3200ug.
