For Research Use Only

TULA; UBASH3A Polyclonal antibody

Catalog Number:13357-1-AP

Basic Information	Catalog Number: 13357-1-AP	GenBank Accession Number: BC028138	Purification Method: Antigen affinity purification				
	Size: 150ul, Concentration: 180 µg/ml by Bradford method using BSA as the standard; Source: Rabbit Isotype: IgG Immunogen Catalog Number: AG4170	UNIPROT ID: P57075 Full Name: ubiquitin associated and SH3 domain containing, A					
				Calculated MW: 74 kDa, 70 kDa			
				Applications	Tested Applications: ELISA		
					Species Specificity: human, mouse, rat		
		Background Information	UBASH3A gene encodes ubiquitin-associated and SH3 domain-containing protein A (UBASH3A)/ Suppressor of T-cell receptor signaling 2 (STS2), also known as T-cell ubiquitin ligand 1 (TULA1) which is one of two family members belonging to the T-cell ubiquitin ligand (TULA) family. UBASH3A gene expression is limited to only a few tissues, with its highest expression in spleen, peripheral blood leukocytes, and bone marrow. UBASH3A protein is associated with c-Cbl and ubiquitylated proteins and has been implicated in the regulation of signaling mediated by protein-tyrosine kinases oth family members can negatively regulate T-cell signaling. UBASH3A can facilitate growth factor withdrawal-induced apoptosis in T cells via its interaction with apoptosis-inducing factor (AIF).				
Storage	Storage: Store at -20°C. Stable for one year after shipment. Storage Buffer: PBS with 0.02% sodium azide and 50% glycerol pH 7.3.						
*** 20ul sizes contain 0.1% BSA	Aliquoting is unnecessary for -20°C s
