

For Research Use Only

ACSL5 Polyclonal antibody, PBS Only

Catalog Number: 15708-1-PBS

Basic Information

Catalog Number:

15708-1-PBS

Size:

100ug, Concentration: 1 mg/ml by Nanodrop;

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG8258

GenBank Accession Number:

BC007985

GeneID (NCBI):

51703

UNIPROT ID:

Q9ULC5

Full Name:

acyl-CoA synthetase long-chain family member 5

Calculated MW:

76 kDa

Observed MW:

66-70 kDa

Purification Method:

Antigen affinity purification

Applications

Tested Applications:

WB, IHC, IP, Indirect ELISA

Species Specificity:

human, mouse, rat

Background Information

Acyl-CoA synthetase 5, a member of the ACSL gene family that catalyzes the activation of long-chain fatty acids for lipid biosynthesis, is the only ACSL isoform that is both, located on mitochondria and functionally involved in enterocyte apoptosis. ACSL5 could play a role in promoting fatty acid-induced lipopoptosis in hepatocytes as important mechanism in fatty liver-related disorders (PMID:20470896). ACSL5 is most abundant in liver, brown adipose tissue, and intestine and is located on both the mitochondrial membrane and endoplasmic reticulum (PMID:20798351). It has 3 isoforms produced by alternative splicing.

Storage

Storage:

Store at -80°C.

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 15708-1-AP (ACSL5 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 15708-1-PBS in a different storage buffer formulation.

IP result of anti-ACSL5 (IP:15708-1-AP, 4ug; Detection:15708-1-AP 1:600) with mouse brain tissue lysate 4000ug. This data was developed using the same antibody clone with 15708-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded Colorectal cancer slide using 15708-1-AP (ACSL5 antibody) at dilution of 1:200 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 15708-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded Colorectal cancer slide using 15708-1-AP (ACSL5 antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 15708-1-PBS in a different storage buffer formulation.
