For Research Use Only

MMS19 Polyclonal antibody Catalog Number: 16015-1-AP Featured Product 17

Featured Product 17 Publications

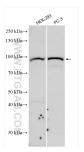

IgC homolog (S. cl Immunogen Catalog Number: Calculated Mi AG8792 1030 aa, 1131 Observed MW 103-113 kDa Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: VB, CoIP Species Specificity: human, mouse, rat Cited Species: human, mouse NMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trained) NEXTON Server (NEI with ERCC2/XPB helicases, both subunits of NER-trained)	WB 1:1000-1:6000 IF/ICC 1:50-1:500 eotide excision repair cerevisiae) WV: 5 kDa W:
150ul, Concentration: 500 ug/ml by 64210 Nanodrop; UNIPROT ID: Source: Q96T76 Rabbit Full Name: Isotype: MMS19 nuclee IgG homolog (S. c. Immunogen Catalog Number: Calculated Mi AG8792 1030 aa, 113 I Observed MW 103-113 kDa VB, IF/ICC, EUSA Cited Applications: WB, CoIP Species Specificity: Numan, mouse, rat Cited Species: Numan, mouse Numan, mouse Background Information MMS19 plays a critical role in the biogenesis of mult polymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trained in the context of the suburity of NER-trained in the suburity of NER-trained in the context of the suburity of NER-trained in the	WB 1:1000-1:6000 IF/ICC 1:50-1:500 eotide excision repair cerevisiae) WV: 5 kDa W: Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
Source: Q96T76 Rabbit Full Name: Isotype: MMS19 nucleot IgG homolog (S. cc Immunogen Catalog Number: Calculated Mill AG8792 1030 aa, 113 I Observed MW 103-113 kDa Applications: WB, IF/ICC, ELISA Cited Applications: WB, CoIP Species Specificity: human, mouse, rat Cited Species: human, mouse MMS19 plays a critical role in the biogenesis of mult polymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI) with ERCC2/XPB helicases, both subunits of NER-trait	eotide excision repair cerevisiae) 4W: 5 kDa W: 9 Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
Rabbit Full Name: Isotype: MMS19 nuclea IgG homolog (S. c Immunogen Catalog Number: Calculated MM AG8792 1030 aa, 113 I Observed MW 103-113 kDa Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: WB, ColP Species Specificity: human, mouse, rat Cited Species: Cited Species: human, mouse NMS19 plays a critical role in the biogenesis of mult polymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trained in the comparison of the comparison	cerevisiae) 4W: 5 kDa W: Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
Isotype: MMS19 nuclea IgG homolog (S. c. Immunogen Catalog Number: Calculated MM AG8792 1030 aa, 113 I Observed MW 103-113 kDa Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: WB, CoIP Species Specificity: Species Specificity: human, mouse, rat Cited Species: human, mouse Numan, mouse NMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trait	cerevisiae) 4W: 5 kDa W: Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
IgC homolog (S. cl Immunogen Catalog Number: Calculated Mi AG8792 1030 aa, 1131 Observed MW 103-113 kDa Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: VB, CoIP Species Specificity: human, mouse, rat Cited Species: human, mouse NMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trained) NEXTON Server (NEI with ERCC2/XPB helicases, both subunits of NER-trained)	cerevisiae) 4W: 5 kDa W: Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
AG8792 1030 aa, 113 l Observed MW 103-113 kDa Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: WB, CoIP Species Specificity: Species Specificity: human, mouse, rat Cited Species: human, mouse MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trained)	5 kDa W: a Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
Applications Tested Applications: WB, IF/ICC, ELISA Cited Applications: WB, CoIP Species Specificity: human, mouse, rat Cited Species: human, mouse Background Information MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-transport	Positive Controls: WB : HEK-293 cells, human brain tissue, PC-3 cells
WB, IF/ICC, ELISA Cited Applications: WB, CoIP Species Specificity: human, mouse, rat Cited Species: human, mouse MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-training in the interval of the second seco	WB : HEK-293 cells, human brain tissue, PC-3 cells
Will, IFICE, ELISA Cited Applications: WB, ColP Species Specificity: human, mouse, rat Cited Species: human, mouse MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI) with ERCC2/XPB helicases, both subunits of NER-trained	
WB, ColP Species Specificity: human, mouse, rat Cited Species: human, mouse MMS19 plays a critical role in the biogenesis of mult polymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-train	IF/ICC : HeLa cells,
Background Information MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-transmission)	
Background Information MMS19 plays a critical role in the biogenesis of multipolymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-transmission)	
polymerase II function, and telomere length regulat possible has a role in nucleotide excision repair(NEI with ERCC2/XPB helicases, both subunits of NER-trai	
	ultiple Fe-S proteins, which functions in genomic stability, RN ation. MMS19 has a alanine- and leucine-rich N terminus. It ER) and RNA polymerase II(POLII) transcription by interactin anscription factor TFIIH. Also MMS19 involves in the regulati acting as a part of the mitotic spindle-associated MMXD comp

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

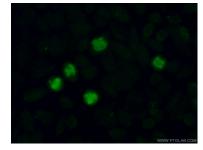

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 16015-1-AP (MMS19 antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. human brain tissue were subjected to SDS PAGE followed by western blot with 16015-1-AP (MMS19 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.

Immunofluorescent analysis of (4% PFA) fixed HeLa cells using 16015-1-AP (MMS19 antibody) at dilution of 1:50 and Alexa Fluor 488-conjugated Goat Anti-Rabbit IgG(H+L).
