## TIMP1 Polyclonal antibody Catalog Number: 16644-1-AP 92 Publications

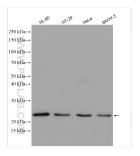

Basic Information	Catalog Number: 16644-1-AP	GenBank Accession Number BC000866	er: Purification Method: Antigen affinity purification
	Size:	GenelD (NCBI):	Recommended Dilutions:
	150ul , Concentration: 500 ug/ml by	7076	WB 1:500-1:2000
	Nanodrop; Source:	UNIPROT ID:	IF/ICC 1:200-1:800
		P01033	
	Rabbit	Full Name: TIMP metallopeptidase inhibitor 1 Calculated MW:	
	lsotype:		
	IgG Immunogen Catalog Number: AG10006		
		23 kDa	
		Observed MW:	
		23 kDa	
Applications	Tested Applications:	Positive Controls:	
	WB, IF/ICC, ELISA	WB	: HL-60 cells, HT-29 cells, HeLa cells, SKOV-3 cell
	Cited Applications:	IF/ICC : HT-29 cells,	
	WB, IHC, IF		
	Species Specificity: human		
	Cited Species:		
	human, rabbit, bovine		
Background Information	TIMP1 is a member of the family of r TIMP2, TIMP3, and TIMP4). Tissue inf	•	nibitors, which contains four members (TIMP1, s (TIMPs) are multifaceted molecules that exhib
Background Information	properties beyond their classical pro as modulation of angiogenesis, pron role in cell cycle regulation and canc expression of TIMP1 is associated wi papillary thyroid carcinoma, cutanec the process of implantation, particul	ibitors of metalloproteinase teinase inhibitory function. T notion of cell proliferation, a er progression. Recently, clir th an unfavorable prognosis bus melanoma and breast car arly the cytotrophoblast inva	s (TIMPs) are multifaceted molecules that exhib 'IMP1 has several MMP-independent functions sund inhibition of apoptosis. TIMP1 plays importan incal studies have shown that the aberrant in a series of tumors, such as gastric cancer, incer. In pregnancy, TIMP1 plays a regulatory role sion of the uterine endometrium. In pregnancy,

In pregnancy, icularly the cytotrophoblast invasion of the uterin Application IHC

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 16644-1-AP (TIMP1 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. Immunofluorescent analysis of (4% PFA) fixed HT-29 cells using TIMP1 antibody (16644-1-AP) at dilution of 1:400 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
