## CC2D1A Polyclonal antibody Catalog Number:16816-1-AP Featured Product 5 Pu

Featured Product 5 Publications

Basic Information	Catalog Number: 16816-1-AP	GenBank Accession Number: BC064981	Purification Method: Antigen affinity purification	
	Size:	GeneID (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 1000 ug/ml by		WB 1:500-1:2000 IP 0.5-4.0 ug for 1.0-3.0 mg of total protein lysate IHC 1:20-1:200 IF/ICC 1:20-1:200	
	Nanodrop and 400 ug/ml by Bradford method using BSA as the standard;	UNIPROT ID: Q6P1N0		
	Source: Rabbit	Full Name: coiled-coil and C2 domain contain		
	Isotype:	1A		
	IgG Immunogen Catalog Number: AG10355	Calculated MW:		
		951 aa, 104 kDa		
		Observed MW: 130 kDa, 104 kDa		
Applications	Tested Applications:	Positive Co	ntrols:	
	Cited Applications: liver tissue		93 cells, HeLa cells, Jurkat cells, mouse	
			iver tissue,	
	Species Specificity: human, mouse, rat		IHC : human testis tissue, human brain tissue, human liver tissue, human skin tissue	
	Cited Species: mouse, rat	IF/ICC : He	pG2 cells,	
	Note-IHC: suggested antigen r TE buffer pH 9.0; (*) Alternativ retrieval may be performed w	vely, antigen		
	buffer pH 6.0			
Background Information	buffer pH 6.0 CC2D1A (coiled-coil and C2 domain- in endolysosomes), is a evolutionary nucleus, centrosome, and endolysoso diverse biological roles. Mutations in generate a truncated 85-kDa product. doublet of long isoform and 67 kDa si predominant isoform in rodent cells,	containing 1A), also known as Freuc conserved protein located in differe mes. It acts as a scaffold protein tha CC2D1A have been linked to nonsy Several isoforms of CC2D1A protein nort isoform. The short isoform of CC while the long isoform is more abur	I-1, Aki1 or TAPE (TBK1-associated protein ent subcellular compartments, including ti t interacts with various proteins and play rndromic mental retardation (NMSR) and ns have also been described: 120 / 130-kD 2D1A has been identified as the Idant in human cells. Recently it has been ted in both TLR and RLR signaling at a ven

## Selected Validation Data

HEK-293 cells were subjected to SDS PAGE followed by western blot with 16816-1-AP (CC2D1A antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffinembedded human testis using 16816-1-AP (CC2D1A antibody) at dilution of 1:100 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human testis using 16816-1-AP (CC2D1A antibody) at dilution of 1:100 (under 40x lens).

Immunofluorescent analysis of HepG2 cells, using CC2D1A antibody 16816-1-AP at 1:50 dilution and Rhodamine-labeled goat anti-rabbit IgG (red).

IP result of anti-CC2D1A (IP:16816-1-AP, 4ug; Detection:16816-1-AP 1:2000) with mouse liver tissue lysate 4000ug.
