PIK3IP1 Polyclonal antibody Catalog Number: 16826-1-AP Featured Product 16

Featured Product 16 Publications

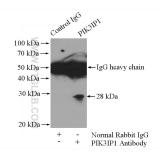

| Basic Information | Catalog Number: 16826-1-AP | GenBank Accession Number: BC011049 | Purification Method: Antigen affinity purification | |
|---|--|---|---|--------------------|
| | Size: | GenelD (NCBI): | Recommended Dilutions: | |
| | 150ul , Concentration: 650 ug/ml by Nanodrop and 213 ug/ml by Bradford method using BSA as the standard; | 113791 | WB 1:500-1:2000 | |
| | | UNIPROT ID: | IP 0.5-4.0 ug for 1.0-3.0 mg of total | |
| | | Q96FE7 | protein lysate | |
| | Source: Rabbit Isotype: IgG Immunogen Catalog Number: AG10427 | Full Name: | | |
| | | phosphoinositide-3-kinase interacting protein 1 Calculated MW: | | |
| | | | | 263 aa, 28 kDa |
| | | Observed MW: | | |
| | | 37 kDa | | |
| | | Applications | Tested Applications: | Positive Controls: |
| WB, IP, ELISA | WB : HeLa cells, HepG2 cells, mouse liver tissue | | | |
| Cited Applications: WB, IF, CoIP | | | HeLa cells, | |
| Species Specificity: human, mouse, rat | | | | |
| Cited Species: | | | | |
| human, mouse, rat, chicken, bovine | | | | |
| | | | | |
| Background Information | kinases (PI3Ks) regulate important ce metabolism. PIK3IP1 is a transmemb homology with the p85 regulatory su 11, 18, 19, 25,28 kDa. PIK3IP1 underg PIK3IP1 migrates at about 43 kDa in also detected a 65 kDa variant in Hep | ellular processes such as prolifer rane protein that possesses a re ibunit of PI3K. It has 5 isoforms p oes N- and O-linked amino acid western blot analysis, while the pG2 cell lysate that PIK3IP1 is in | gion in its intracellular domain that shares roduced by alternative splicing with the MW o glycosylation. The major glycosylated form o unglycosylated form migrates at 37 kDa. It is | |

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

HeLa cells were subjected to SDS PAGE followed by western blot with 16826-1-AP (PIK3IP1 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.

IP result of anti-PIK3IP1 (IP:16826-1-AP, 4ug; Detection:16826-1-AP 1:500) with HeLa cells lysate 3200ug.
