## iNOS Polyclonal antibody Catalog Number: 18985-1-AP Featured Product

Featured Product

805 Publications

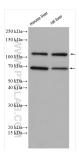

Basic Information	Catalog Number: 18985-1-AP	GenBank Accession Number: NM_000625	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 1200 ug/ml by		WB 1:500-1:4000	
	Nanodrop;	UNIPROT ID:	IF/ICC 1:50-1:500	
	Source:	P35228		
	Rabbit	Full Name:		
	Isotype:	nitric oxide synthase 2, inducible Calculated MW:		
	IgG			
		131 kDa		
		Observed MW:		
Applications	Tested Applications:	Positive Co	Positive Controls:	
	WB, IF/ICC, FC (Intra), ELISA	WB : mouse liver tissue, rat liver tissue		
	Cited Applications: WB, IF, FC (Intra), IP, ELISA		IF/ICC : HepG2 cells, HeLa cells	
	Species Specificity:			
	human, mouse, rat			
	Cited Species:			
	human, mouse, rat, pig, chicken, bovi	ne		
Background Information	NOS2, also named as iNOS and NOS2A, produces nitric oxide (NO) which is a messenger molecule with diverse functions throughout the body. NO is a reactive free radical which acts as a biologic mediator in several processes including neurotransmission, antimicrobial and antitumoral activities. NOS2 is a nitric oxide synthase which is expressed in liver and is inducible by a combination of lipopolysaccharide and certain cytokines. iNOS has a very short half-life due to rapid degradation by calpain. iNOS monomer is a direct substrate of calpain I and can be cleaved by calpain I at the canonical CaM-binding site(503-532aa) of iNOS, and then a ~70 kDa band can be detected by western (PMID:11786228). This antibody is specific to NOS2.

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

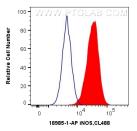

## Selected Validation Data

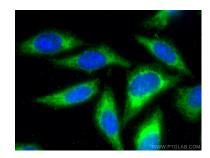

Various lysates were subjected to SDS PAGE followed by western blot with 18985-1-AP (iNOS antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.

WB result of iNOS antibody (18985-1-AP; 1:600; incubated at room temperature for 1.5 hours) with sh-Control and sh-iNOS transfected HeLa cells.

1X10^6 HepG2 cells were intracellularly stained with 0.4 ug Anti-Human iNOS (18985-1-AP) and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) at dilution 1:1000 (red), or 0.4 ug Isotype Control. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).

Immunofluorescent analysis of (-20°C Ethanol) fixed HepG2 cells using iNOS antibody (18985-1-AP) at dilution of 1:200 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L).
