

FYN-Specific Polyclonal antibody

Catalog Number: 20242-1-AP

Basic Information

Catalog Number: 20242-1-AP	GenBank Accession Number: NM_002037	Purification Method: Antigen affinity purification
Size: 150ul , Concentration: 140 µg/ml by Bradford method using BSA as the standard;	GeneID (NCBI): 2534	
Source: Rabbit	Full Name: FYN oncogene related to SRC, FGR, YES	
Isotype: IgG	Calculated MW: 61 kDa	

Applications

Tested Applications:
ELISA

Species Specificity:
human, mouse, rat

Background Information

FYN, also named as p59-Fyn and SLK, belongs to the protein kinase superfamily, Tyr protein kinase family and SRC subfamily. FYN is implicated in the control of cell growth. It plays a role in the regulation of intracellular calcium levels, with isoform 2 showing the greater ability to mobilize cytoplasmic calcium in comparison to isoform 1. FYN is required in brain development and mature brain function with important roles in the regulation of axon growth, axon guidance, and neurite extension. FYN blocks axon outgrowth and attraction induced by NTN1 by phosphorylating its receptor DDC. This antibody is specific to FYN.

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA
