

For Research Use Only

ZBBX Polyclonal antibody, PBS Only

Catalog Number: 23958-1-PBS

Basic Information

Catalog Number: 23958-1-PBS	GenBank Accession Number: BC034229	Purification Method: Antigen Affinity purified
Size: 100ug , Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 79740	
Source: Rabbit	UNIPROT ID: A8MT70	
Isotype: IgG	Full Name: zinc finger, B-box domain containing	
Immunogen Catalog Number: AG20988	Calculated MW: 800 aa, 91 kDa	
	Observed MW: 88-96 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, rat

Background Information

ZBBX (Zinc finger B-box domain-containing protein 1) contains a classic B-box-type zinc-finger (B-box1) motif that adopts a C6H2 zinc-binding fold and is therefore predicted to bind zinc ions and mediate protein-protein or protein-nucleic acid interactions. ZBBX was implicated previously by a de novo deletion in a male ADHD proband, and separately by a CNV gain disrupting ZBBX (PMID: 21832240).

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 23958-1-AP (ZBBX antibody) at dilution of 1:1500 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 23958-1-PBS in a different storage buffer formulation.
