

For Research Use Only

CLN5 Polyclonal antibody, PBS Only

Catalog Number: 24605-1-PBS

Basic Information

Catalog Number: 24605-1-PBS	GenBank Accession Number: BC153154	Purification Method: Antigen affinity purification
Size: 100ug , Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 1203	
Source: Rabbit	UNIPROT ID: O75503	
Isotype: IgG	Full Name: ceroid-lipofuscinosis, neuronal 5	
Immunogen Catalog Number: AG18175	Calculated MW: 407 aa, 46 kDa	
	Observed MW: 48 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, mouse

Background Information

The CLN5 (ceroid lipofuscinosis neuronal protein 5) protein is ubiquitously expressed in the majority of tissues studied and in the brain, CLN5 shows both neuronal and glial cell expression. CLN5 plays a role in maintaining an acidic environment in the lysosomes, a critical feature for a functional lysosome (PMID: 38236309). Moreover, CLN5-deficient neuronal progenitor cells showed reduced thioesterase activity, confirming the live cell function of CLN5 in setting S-depalmitoylation levels (PMID: 35427157).

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 24605-1-AP (CLN5 antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 24605-1-PBS in a different storage buffer formulation.
