Serpin F1/PEDF Polyclonal antibody

Catalog Number:26045-1-AP 3 Publications

Basic Information	Catalog Number: 26045-1-AP	GenBank Accession Number: BC013984	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	150ul , Concentration: 350 ug/ml by	5176	WB 1:500-1:2000	
	Nanodrop and 233 ug/ml by Bradford	UNIPROT ID:	IHC 1:500-1:2000	
	method using BSA as the standard; Source:	P36955		
	Rabbit serr Isotype: (alp	Full Name: serpin peptidase inhibitor, clade F		
		(alpha-2 antiplasmin, pigment epithelium derived factor), member 1		
	Immunogen Catalog Number: AG23296	Calculated MW: 418 aa, 46 kDa		
		Observed MW: 46 kDa		
Applications	Tested Applications:	Positive Cor	itrols:	
Applications	WB, IHC, ELISA	WB : A375 cells, human serum		
	Cited Applications: WB, IF	IHC : human liver tissue,		
	Species Specificity: human			
	Cited Species: human			
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0			
	PEDF also known as serpin F1 (SERPINF1), is a multifunctional secreted protein that has anti-angiogenic, anti- tumorigenic, and neurotrophic functionsis. It is an approximately 50-kDa secreted protein that is widely expressed including by osteoblasts and osteoclasts. PEDF is also one of the most abundant secretory products of adipocytes, and circulating concentrations of PEDF correlate positively with body fat mass and INS resistance. PEDF is a neurotrophic factor involved in neuronal differentiation in retinoblastoma cells. Mutations in this gene were found in individuals with osteogenesis imperfecta, type VI.

## Selected Validation Data

human serum were subjected to SDS PAGE followed by western blot with 26045-1-AP (PEDF antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. A375 cells were subjected to SDS PAGE followed by western blot with 26045-1-AP (PEDF antibody at dilution of 1:1000 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffinembedded human liver tissue slide using 26045-1-AP (PEDF antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
