

For Research Use Only

NOTCH3 Polyclonal antibody

Catalog Number: 30540-1-AP

Basic Information

Catalog Number: 30540-1-AP	GenBank Accession Number: NM_000435	Purification Method: Antigen affinity purification
Size: 150ul , Concentration: 650 µg/ml by Nanodrop;	GeneID (NCBI): 4854	Recommended Dilutions: WB 1:500-1:2000
Source: Rabbit	Full Name: Notch homolog 3 (Drosophila)	
Isotype: IgG	Calculated MW: 244 kDa	
Immunogen Catalog Number: AG30242	Observed MW: 270 kDa, 90 kDa	

Applications

Tested Applications: WB, ELISA	Positive Controls: WB : Caco-2 cells, HeLa cells, U2OS cells, mouse lung tissue
Species Specificity: Human, mouse	

Background Information

NOTCH3 (Neurogenic locus notch homolog protein 3) is one of four mammalian Notch proteins, which act as signalling receptors to control cell fate in many developmental and adult tissue contexts (PMID: 32210034). Notch is a transmembrane, developmental signalling receptor, which plays many crucial roles in developmental patterning, cell fate decisions, regulation of cell survival and proliferation (PMID:30246579). Genetic studies have shown that Notch3 gene knockouts are viable and have limited developmental defects, focussed mostly on defects in the arterial smooth muscle cell lineage. Notch3, in collaboration with other Notch proteins, is involved in stem cell regulation in different tissues in stem cell regulation in different tissues, and it also controls the plasticity of the vascular smooth muscle phenotype involved in arterial vessel remodelling. Overexpression, gene amplification and mis-activation of Notch3 are associated with different cancers, in particular triple negative breast cancer and ovarian cancer (PMID: 32210034).

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 30540-1-AP (NOTCH3 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.
