

For Research Use Only

ABHD17A Polyclonal antibody

Catalog Number: 32439-1-AP

Basic Information

Catalog Number:

32439-1-AP

Size:

150ul, Concentration: 500 ug/ml by Nanodrop;

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG36531

GenBank Accession Number:

BC000158

GeneID (NCBI):

81926

UNIPROT ID:

Q96GS6

Full Name:

family with sequence similarity 108, member A1

Calculated MW:

34 kDa

Observed MW:

34 kDa

Purification Method:

Antigen affinity Purification

Recommended Dilutions:

WB 1:1000-1:6000

Applications

Tested Applications:

WB, ELISA

Species Specificity:

human, mouse, rat

Positive Controls:

WB : mouse brain tissue, rat brain tissue

Background Information

Alpha/beta hydrolase domain-containing protein 17A (ABHD17A), also known as FAM108A, is a membrane-localized thioesterase, which regulates H- and N-RAS39, also catalyzes the depalmitoylation of CNAβ1 causing it to redistribute from the PM to the cytosol and the Golgi (PMID: 34663815). ABHD17a is a major acyl protein thioesterase that site-specifically deacylates the STREX domain of the BK channel to control channel activity (PMID: 32913120). Western blot analysis detected ABHD17A at an apparent molecular mass of 34 kDa (PMID: 27307232), and the 70 kDa-band could be the dimer.

Storage

Storage:

Store at -20°C. Stable for one year after shipment.

Storage Buffer:

PBS with 0.02% sodium azide and 50% glycerol, pH7.3

Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 32439-1-AP (ABHD17A antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours.
