GFP tag Polyclonal antibody Catalog Number: 50430-2-AP 768 Publications

Basic Information	Catalog Number: 50430-2-AP	GenBank Accession M62653	Number:	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):		Recommended Dilutions: WB 1:1000-1:4000 IP 0.5-4.0 ug for 1.0-3.0 mg of total protein lysate	
	150ul , Concentration: 1000 ug/ml by Nanodrop; Source: Rabbit Isotype: IgG				
					26 kDa
				IF/ICC 1:50-1:500	
		Immunogen Catalog Number: AG2128			
	Applications	Tested Applications:	Positive Controls:		
WB, IF/ICC, IF-P, IP, ELISA			WB : recombinant protein, Transfected HEK-293 ce		
Cited Applications: WB, IHC, IF, IP, CoIP, ChIP, RIP, IP-MS		IP: Transfec	IP : Transfected HEK-293T cells,		
Species Specificity:			IF-P : mouse	brain tissue,	
aequorea victoria, recombinant prote		in	IF/ICC : Trar	nsfected HEK-293 cells,	
Cited Species:

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Western blot of eGFP-tagged fusion protein with anti-eGFP-tag (50430-2-AP) at various dilutions.

IP result of anti-GFP tag (IP:50430-2-AP, 4ug; Detection:50430-2-AP 1:10000) with Transfected HEK-293T cells lysate 400 ug.

Transfected HEK-293 cells were subjected to SDS PAGE followed by western blot with 50430-2-AP (GFP tag Antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.

Immunofluorescent analysis of (4% PFA) fixed paraffin-embedded mouse brain tissue using GFP tag antibody (50430-2-AP) at dilution of 1:200 and CoraLite®594-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) (SA00013-2). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunofluorescent analysis of (-20°C Ethanol) fixed Transfected HEK-293 cells using GFP tag antibody (50430-2-AP) at dilution of 1:200 and CoraLite®594-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L).
