

For Research Use Only

SMAD3 Polyclonal antibody

Catalog Number: 51145-1-AP **13 Publications**

Basic Information

Catalog Number: 51145-1-AP	GenBank Accession Number: BC050743	Purification Method: Antigen affinity purification
Size: 150ul , Concentration: 240 µg/ml by Bradford method using BSA as the standard;	GeneID (NCBI): 4088	
Source: Rabbit	UNIPROT ID: P84022	
Isotype: IgG	Full Name: SMAD family member 3	
	Calculated MW: 48 kDa	

Applications

Tested Applications:
ELISA

Cited Applications:
WB

Species Specificity:
human

Cited Species:
human, mouse, rat

Background Information

SMAD family member 3 (SMAD3), also named Mothers against decapentaplegic homolog 3. Receptor-regulated SMAD (R-SMAD) that is an intracellular signal transducer and transcriptional modulator activated by TGF-beta (transforming growth factor) and activin type 1 receptor kinases. Binds the TRE element in the promoter region of many genes that are regulated by TGF-beta and, on formation of the SMAD3/SMAD4 complex, activates transcription. Also can form a SMAD3/SMAD4/JUN/FOS complex at the AP-1/SMAD site to regulate TGF-beta-mediated transcription. Has an inhibitory effect on wound healing probably by modulating both growth and migration of primary keratinocytes and by altering the TGF-mediated chemotaxis of monocytes. This effect on wound healing appears to be hormone-sensitive. Regulator of chondrogenesis and osteogenesis and inhibits early healing of bone fractures (By similarity). Positively regulates PDPK1 kinase activity by stimulating its dissociation from the 14-3-3 protein YWHAQ which acts as a negative regulator. The observed molecular weight of SMAD3 is about 48 kDa.

Notable Publications

Author	Pubmed ID	Journal	Application
Xiaomeng Zou	36411770	Biomed Res Int	WB

Storage

Storage:
Store at -20°C.

Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol, pH7.3

Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA
