## MYC tag Monoclonal antibody Catalog Number:60003-2-Ig 272 Publications

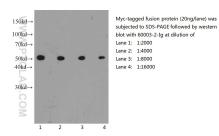

Basic Information	Catalog Number: 60003-2-1g	GenBank Accession	Number:	Purification Method:		
	U U	GenelD (NCBI):		Protein A purification		
	Size: 150ul , Concentration: 1000 ug/ml by Nanodrop;	99 Full Name		CloneNo.: 1A5A2		
		Myc tag		Recommended Dilutions:		
	Source:			WB 1:2000-1:10000 IP 0.5-4.0 ug for 1.0-3.0 mg of tota protein lysate IF/ICC 1:500-1:2000		
	Mouse				of total	
	Isotype:					
	lgG1					
Applications	Tested Applications:		trols:			
	WB, IF/ICC, FC (Intra), IP, ELISA		WB : recombinant protein,			
	Cited Applications: WB, IF, IP, CoIP, ChIP	IP: Iran			fected HEK-293 cells,	
	Species Specificity: recombinant protein		IF/ICC : Tran	nsfected HEK-293 cells,		
	Cited Species: human					
Background Informatio	_	wing characteristics:	solubility, detect	tion, purification, localization	and	
Background Informatio	Protein tags are protein or peptide se facilitates one or several of the follow	wing characteristics: Is to amino acid resid on used to separate re n also be used in the inant proteins contai	solubility, detect dues(EQKLISEEDL ecombinant, over isolation of prote ning the Myc tag.	tion, purification, localization ) of the human c-Myc protein. rexpressed protein from wild t ein complexes with multiple: . The antibody recognizes the	and It can be ype proteii subunits.	
	Protein tags are protein or peptide se facilitates one or several of the follor expression. The c-Myc tag correspond used for affinity chromatography, the expressed by the host organism. It ca Myc-Tag mouse mAb detects recomb	wing characteristics: Is to amino acid resid on used to separate re n also be used in the inant proteins contai	solubility, detect dues(EQKLISEEDL ecombinant, over isolation of prote ning the Myc tag.	tion, purification, localization ) of the human c-Myc protein. rexpressed protein from wild t ein complexes with multiple: . The antibody recognizes the	and It can be ype proteir subunits.

For technical support and original validation data for this product please contact: T: 1 (888) 4PTGLAB (1-888-478-4522) (toll free E: proteintech@ptglab.com in USA), or 1(312) 455-8498 (outside USA) W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

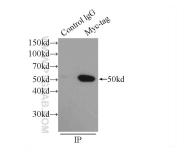

## Selected Validation Data

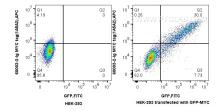

Western blot of Myc-tagged fusion protein with anti-Myc-tag (60003-2-lg) at various dilutions.

WWW.PTGLAB.CO

Immunofluorescent analysis of (-20°C Ethanol) fixed Transfected HEK-293 cells using MYC tag antibody (60003-2-1g, Clone: 1A5A2) at dilution of 1:1000 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L).

IP result of anti-MYC tag (IP:60003-2-Ig, 4ug; Detection:60003-2-Ig 1:10000) with Transfected HEK-293 cells lysate 300ug.

1x10^6 HEK-293 transfected with GFP-MYC were intracellularly stained with 0.25 ug MYC tag Monoclonal antibody (60003-2-1g, Clone:1A5A2) and Multi-rAb CoraLite® Plus 647-Goat Anti-Mouse Recombinant Secondary Antibody (H+L)(RGAM005). Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
