## BAX Monoclonal antibody

Catalog Number:60267-1-lg Featured Product

484 Publications

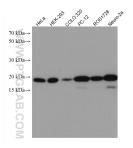

Basic Information	Catalog Number: 60267-1-lg	GenBank Accession Numbe BC014175	er: Purification Method: Protein A purification	
	Size:	GenelD (NCBI):	CloneNo.:	
	150ul , Concentration: 1000 ug/ml by		4G5E8	
	Nanodrop;	UNIPROT ID:	Recommended Dilutions:	
	Source:	Q07812	WB 1:5000-1:20000	
	Mouse	Full Name:	IP 0.5-4.0 ug for 1.0-3.0 mg of total protein lysate	
	Isotype: IgG2b Immunogen Catalog Number: AG21068	BCL2-associated X protein	IHC 1:500-1:2000	
		Calculated MW: 21 kDa		
		Observed MW: 21 kDa		
Applications	Tested Applications:	Pos	Positive Controls:	
	Cited Applications: tiss		WB : HeLa cells, EC 109 cells, HepG2 cells, human testi tissue, HEK-293 cells, COLO 320 cells, PC-12 cells, ROS1728 cells, Neuro-2a cells	
			HC : human liver cancer tissue, human colon cancer	
	human mayor unt nig yabbit anning		ue, human kidney tissue, human lung cancer tissue nan rectal cancer tissue, human stomach cancer	
	Note-IHC: suggested antigen retrieval withtissueTE buffer pH 9.0; (*) Alternatively, antigenretrieval may be performed with citratebuffer pH 6.0			
		bujjer pH 6.0		
Background Information	BAX, also named as BCL2L4, is a pro-a controlling cell life and death. Bax la mitochondrial membrane upon apopt translocation from the cytosol to the r which leads to the release of cytochro	gely localizes to the cytopla cosis induction (PMID: 91080 nitochondria and permeabil ome c from mitochondria (PM	-2 protein family, which plays a pivotal role in asm of healthy cells, but accumulates on the outer 035). BAX can commit a cell to apoptosis by lization of the outer mitochondrial membrane, MID: 21763611). The expression of BAX is en shown to be involved in p53-mediated	
	BAX, also named as BCL2L4, is a pro-a controlling cell life and death. Bax lan mitochondrial membrane upon apopt translocation from the cytosol to the r which leads to the release of cytochro upregulated by the tumor suppressor apoptosis (PMID: 8183579).	gely localizes to the cytopla osis induction (PMID: 91080 nitochondria and permeabil me c from mitochondria (PM protein p53, and BAX has be	asm of healthy cells, but accumulates on the outer 135). ## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 60267-1-lg (BAX antibody) at dilution of 1:20000 incubated at room temperature for 1.5 hours.

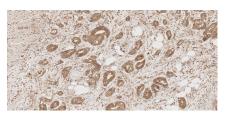

Immunohistochemical analysis of paraffinembedded human liver cancer tissue slide using 60267-1-1g (BAX antibody) at dilution of 1:1000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded human liver cancer tissue slide using 60267-1-1g (BAX antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

IP result of anti-BAX (IP:60267-1-Ig, 4ug; Detection:60267-1-Ig 1:6000) with THP-1 cells lysate 1520 ug.

Immunohistochemical analysis of paraffinembedded human rectal cancer tissue slide using 60267-1-1g (BAX antibody) at dilution of 1:5000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
