## **BDNF** Monoclonal antibody

Catalog Number:66292-1-lg 40 Publications

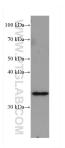

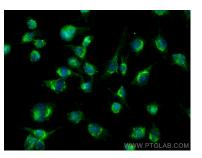

Basic Information	Catalog Number: 66292-1-lg	GenBank Accession Number: BC029795	Purification Method: Protein A purification	
	Size:	GenelD (NCBI):	CloneNo.:	
	150ul , Concentration: 2200 ug/m		1E5C5	
	Nanodrop and 1000 ug/ml by Bradford <sub>UNIPROT ID:</sub> Recommended Dilutions:			
	method using BSA as the standard	<sup>d;</sup> P23560	WB 1:1000-1:4000	
	Source:	Full Name:	IF/ICC 1:400-1:1600	
	Mouse	bram-derived heurotrophic factor		
	Isotype: IgG2a	Calculated MW:		
	Immunogen Catalog Number:	247 aa, 28 kDa		
	AG11329	Observed MW: 32 kDa		
Applications	Tested Applications:	: Positive Controls:		
	WB, IF/ICC, ELISA	WB : U-251 cells, fetal human brain tissue		
	Cited Applications: WB, IHC, IF	IF/ICC : U-251 cells, PC-12 cells		
	Species Specificity: human			
	Cited Species:			
	human, zebrafish			
Background Informatior	human, zebrafish BDNF is a member of the family o other members of the neurotrophi necessary for survival of striatal n Huntington disease patients. It als	in family were successively discovered neurons in the brain. Expression of BDN so plays a role in the regulation of stre	d. BDNF is induced by cortical neurons, ar IF is reduced in both Alzheimer's and ss response and in the biology of mood

	human, zebrafish BDNF is a member of the family o other members of the neurotrophi necessary for survival of striatal n Huntington disease patients. It als disorders. The BDNF gene is rather alternative splicing, producing 28 Author Zhenbo Liu	in family were successively discovered neurons in the brain. Expression of BDN so plays a role in the regulation of stre r complex in its structure and it can ex B-37 kDa proteins.	ss response and in the biology of mood press five different mRNA isoforms by Application WB	
	human, zebrafish BDNF is a member of the family o other members of the neurotrophi necessary for survival of striatal n Huntington disease patients. It als disorders. The BDNF gene is rather alternative splicing, producing 28 Author Zhenbo Liu Yingying Wang	in family were successively discovered neurons in the brain. Expression of BDN so plays a role in the regulation of stre r complex in its structure and it can ex 3-37 kDa proteins. Pubmed ID Journal 30542392 Exp Ther Med	d. BDNF is induced by cortical neurons, an IF is reduced in both Alzheimer's and ss response and in the biology of mood press five different mRNA isoforms by Application WB	
Notable Publications	human, zebrafish BDNF is a member of the family o other members of the neurotrophi necessary for survival of striatal n Huntington disease patients. It als disorders. The BDNF gene is rather alternative splicing, producing 28 Author Zhenbo Liu Yingying Wang Ruyi Zhang Storage: Store at -20°C. Stable for one year	in family were successively discovered heurons in the brain. Expression of BDN so plays a role in the regulation of stre r complex in its structure and it can ex 3-37 kDa proteins. Pubmed ID Journal 30542392 Exp Ther Med 36174863 Int J Biol Macromo 30259256 Neurochem Res	d. BDNF is induced by cortical neurons, an IF is reduced in both Alzheimer's and ss response and in the biology of mood press five different mRNA isoforms by Application WB ol WB	
Background Informatior Notable Publications Storage	human, zebrafish BDNF is a member of the family o other members of the neurotrophi necessary for survival of striatal n Huntington disease patients. It als disorders. The BDNF gene is rather alternative splicing, producing 28 Author Zhenbo Liu Yingying Wang Ruyi Zhang Storage: Store at -20°C. Stable for one year Storage Buffer:	in family were successively discovered neurons in the brain. Expression of BDN so plays a role in the regulation of stree r complex in its structure and it can ex 3-37 kDa proteins. Pubmed ID Journal 30542392 Exp Ther Med 36174863 Int J Biol Macromo 30259256 Neurochem Res r after shipment.	d. BDNF is induced by cortical neurons, an IF is reduced in both Alzheimer's and ss response and in the biology of mood press five different mRNA isoforms by Application WB ol WB

Stable for one year	in family were successively discovered neurons in the brain. Expression of BDN so plays a role in the regulation of stree r complex in its structure and it can ex 3-37 kDa proteins. Pubmed ID Journal 30542392 Exp Ther Med 36174863 Int J Biol Macromo 30259256 Neurochem Res r after shipment. 50% glycerol	d. BDNF is induced by cortical neurons, ar IF is reduced in both Alzheimer's and ss response and in the biology of mood press five different mRNA isoforms by Application WB ol WB	

For technical support and original validation data for this product please contact:T: 1 (888) 4PTGLAB (1-888-478-4522) (toll freeE: proteintech@ptglab.comin USA), or 1(312) 455-8498 (outside USA)W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

U-251 cells were subjected to SDS PAGE followed by western blot with 66292-1-Ig (BDNF antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. Immunofluorescent analysis of (-20°C Methanol) fixed U-251 cells using BDNF antibody (66292-1-Ig, Clone: 1E5C5) at dilution of 1:800 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L).
