

For Research Use Only

Carbonic Anhydrase 6/CA6 Monoclonal antibody, PBS Only

Catalog Number: 66909-1-PBS

Basic Information

Catalog Number:

66909-1-PBS

Size:

100ug , Concentration: 1 mg/ml by Nanodrop;

Source:

Mouse

Isotype:

IgM

Immunogen Catalog Number:

AG24274

GenBank Accession Number:

BC034350

GeneID (NCBI):

765

UNIPROT ID:

P23280

Full Name:

carbonic anhydrase VI

Calculated MW:

35 kDa

Observed MW:

38 kDa

Purification Method:

Antigen affinity purification

CloneNo.:

1C8C7

Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human

Background Information

CA6 (Carbonic anhydrase VI) is a member of CA family proteins that play a central role in pH regulation and electrolyte balance. CA6 is also known as gustin, is a zinc-containing secreted protein which catalyzes the hydration of carbon dioxide in saliva. CA6 is specifically expressed in the salivary gland of a number of mammalian species (PMID:28423504). The amino acid sequences are highly conserved across the species. And it was reported that decreasing of CA6 protein was associated with loss of taste and pathological morphology of taste buds (PMID: 9784398).

Storage

Storage:

Store at -80°C.

Storage Buffer:

PBS only, pH7.3

W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

human saliva were subjected to SDS PAGE followed by western blot with 66909-1-Ig (CA6 antibody) at dilution of 1:2500 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66909-1-PBS in a different storage buffer formulation.
