This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

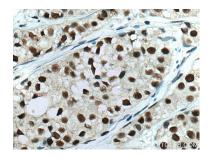

## **Selected Validation Data**

control.

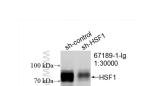

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 67189-1-1g (HSF1 antibody) at dilution of 1:2000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffin-embedded human breast cancer tissue slide using 67189-1-1g (HSF1 antibody) at dilution of 1:2000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

-GAPDH

Various lysates were subjected to SDS PAGE followed by western blot with 67189-1-1g (HSF1 antibody) at dilution of 1:50000 incubated at room temperature for 1.5 hours. The membrane was stripped and reblotted with HRP-conjugated Beta Actin Monoclonal antibody (HRP-66009) as loading control

WB result of HSF1 antibody (67189-1-lg; 1:30000; incubated at room temperature for 1.5 hours) with sh-Control and sh-HSF1 transfected HeLa cells.
