

For Research Use Only

Beta Actin Recombinant monoclonal antibody, PBS Only

Catalog Number: 81119-1-PBS

Basic Information

Catalog Number: 81119-1-PBS	GenBank Accession Number: BC002409	Purification Method: Protein A purification
Size: 100ug, Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 60	CloneNo.: 1E19
Source: Rabbit	UNIPROT ID: P60709	
Isotype: IgG	Full Name: actin, beta	
Immunogen Catalog Number: AG14521	Calculated MW: 375 aa, 42 kDa	
	Observed MW: 42 kDa	

Applications

Tested Applications:
WB, IF/ICC, Indirect ELISA

Species Specificity:
human, mouse, rat

Background Information

Beta Actin, a 42-kDa protein encoded by the ACTB gene, is a highly conserved, ubiquitous protein that forms microfilaments, making it a major component of the cell's cytoskeleton and contractile apparatus. It plays essential roles in cell structure, growth, motility, and intracellular transport, and it's also involved in gene expression regulation by associating with chromatin remodeling complexes. Due to its stable and constitutive expression across different tissues and under most experimental conditions, beta-actin is extensively utilized as an internal loading control in molecular biology techniques, including Western blotting, quantitative PCR (qPCR), and immunohistochemistry, for normalizing gene and protein expression data. Based on epitope identification, this antibody specifically recognizes ACTB and does not exhibit cross-reactivity with ACTA1/ACTA2.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 81119-1-RR (beta actin antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 81119-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed U2OS cells using Beta Actin antibody (81119-1-RR, Clone: 1E19) at dilution of 1:500 and CoraLite®488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2). This data was developed using the same antibody clone with 81119-1-PBS in a different storage buffer formulation.
