

For Research Use Only

EIF6 Recombinant antibody

Catalog Number: 82693-1-RR

Basic Information

| | | |
|---|---|---|
| Catalog Number: 82693-1-RR | GenBank Accession Number: BC001119 | Purification Method: Protein A purification |
| Size: 100ul , Concentration: 500 µg/ml by Nanodrop; | GeneID (NCBI): 3692 | CloneNo.: 2G23 |
| Source: Rabbit | Full Name: eukaryotic translation initiation factor 6 | Recommended Dilutions: WB 1:1000-1:5000 |
| Isotype: IgG | Calculated MW: 27 kDa | |
| Immunogen Catalog Number: AG0324 | Observed MW: 27 kDa | |

Applications

| | |
|--|---|
| Tested Applications: WB, ELISA | Positive Controls: WB : HepG2 cells, HeLa cells, A375 cells, A549 cells, COLO 320 cells |
| Species Specificity: Human | |

Background Information

p27(BBP/eIF6) is an evolutionarily conserved protein that was originally identified as p27(BBP), it functions as an interactor of the cytoplasmic domain of integrin 4 and as the putative translation initiation factor eIF6. p27BBP is found in two pools: one nuclear pool enriched in the perinucleolar region, and one cytoplasmic pool. p27BBP binds to the fibronectin type III domains of integrin 4 subunit (ITGB4), an important functional component of hemidesmosomes, and help link ITGB4 to the intermediate filament cytoskeleton. In vitro and in vivo studies demonstrated that p27BBP is essential for cell viability and has a primary function in the biogenesis of the 60S ribosomal subunit. p27BBP protein is increased in rapidly cycling cells and decreased in villous cells committed to apoptotic cell death. In dysplastic colorectal adenomas and carcinomas, p27BBP displayed a large increase of its nucleolar component and was associated with the nuclear matrix. In particular, p27BBP increased progressively from adenomas to carcinomas and was related to the tumor stage.

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

*** 20ul sizes contain 0.1% BSA

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 82693-1-RR (EIF6 antibody) at dilution of 1:2500 incubated at room temperature for 1.5 hours.
