

For Research Use Only

NGAL Recombinant antibody

Catalog Number: 82841-1-RR

Basic Information

Catalog Number: 82841-1-RR	GenBank Accession Number: NP_005555.2	Purification Method: Protein A purification
Size: 100ul , Concentration: 500 µg/ml by Nanodrop;	GeneID (NCBI): 3934	CloneNo.: 2G1
Source: Rabbit	UNIPROT ID: P80188	Recommended Dilutions: WB 1:2000-1:10000
Isotype: IgG	Full Name: lipocalin 2	
	Calculated MW: 23kd	
	Observed MW: 22-25 kDa	

Applications

Tested Applications: WB, ELISA	Positive Controls: WB : human saliva, SW480 cells, HT-29 cells
Species Specificity: Human	

Background Information

Lipocalin-2 (LCN-2) is a adipocytokine also referred to as neutrophil gelatinase-associated lipocalin (NGAL). Lipocalin-2 is a circulatory protein responsible for the transportation of small and hydrophobic molecules to target organs. Lipocalin-2 is used as a biomarker for acute and chronic renal injury. It is present in a large variety of cells including neutrophil, hepatocytes, lung, bone marrow, adipose tissue, macrophages, thymus, non-neoplastic breast duct, prostate, and renal cells. Different functions have been associated with Lipocalin-2, including antibacterial, anti-inflammatory, and protection against cell and tissue stress (PMID:34463264).

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.
Aliquoting is unnecessary for -20°C storage

***** 20ul sizes contain 0.1% BSA**

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 82841-1-RR (Lipocalin-2/NGAL antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours.
