

For Research Use Only

Phospho-FAK (Tyr397) Recombinant antibody, PBS Only

Catalog Number: 83933-1-PBS

Basic Information

Catalog Number:

83933-1-PBS

Size:

100ug, Concentration: 1 mg/ml by Nanodrop;

Source:

Rabbit

Isotype:

IgG

GenBank Accession Number:

BC028733

GeneID (NCBI):

5747

UNIPROT ID:

Q05397

Full Name:

PTK2 protein tyrosine kinase 2

Calculated MW:

1052 aa, 119 kDa

Observed MW:

110 kDa

Purification Method:

Protein A purification

CloneNo.:

240630F8

Applications

Tested Applications:

WB, IF/ICC, ELISA

Species Specificity:

human

Background Information

FAK (Focal adhesion kinase 1) is also named as FAK1, FADK, pp125FAK, FAK and belongs to the protein kinase superfamily. It is a critical tyrosine kinase that modulates cell adhesion, migration, proliferation and survival in response to extracellular signals (PMID:19664602). It also acts as a pivotal signal 'integrator', controlling and coordinating cellular responses that include cell migration, survival, proliferation and, epithelial tissue repair after DNA damage (PMID:20966971). This protein has some isoforms produced by alternative promoter usage and alternative splicing, and the range of the molecular weights are 100-120 kDa and 40-60 kDa.

Storage

Storage:

Store at -80°C.

Storage Buffer:

PBS only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Non-treated and pervanadate treated HeLa cells were subjected to SDS PAGE followed by western blot with 83933-1-RR (Phospho-FAK (Tyr397) antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. The membrane was stripped and re-blotted with Beta Actin (66009-1-Ig) antibody as a loading control. This data was developed using the same antibody clone with 83933-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed A549 cells using Phospho-FAK (Tyr397) antibody (83933-1-RR, Clone: 240630F8) at dilution of 1:250 and CoraLite® 488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) (SA00013-2), CL594-Phalloidin (red). This data was developed using the same antibody clone with 83933-1-PBS in a different storage buffer formulation.
