

For Research Use Only

CD315/PTGFRN Recombinant monoclonal antibody, PBS Only

Catalog Number:87504-1-PBS

Basic Information

Catalog Number: 87504-1-PBS	GenBank Accession Number: BC152454	Purification Method: Protein A purification
Size: 100ug, Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 5738	CloneNo.: 252486D2
Source: Rabbit	UNIPROT ID: Q9P2B2	
Isotype: IgG	Full Name: prostaglandin F2 receptor negative regulator	
Immunogen Catalog Number: EG5010	Calculated MW: 879 aa, 99 kDa	
	Observed MW: 100-130 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human

Background Information

PTGFRN (Prostaglandin F2 Receptor Negative Regulator), also known as CD315, is a trans-membrane protein that modulates prostaglandin F2 α signaling and links the tetraspanin web to the cytoskeleton, it is now recognized as a driver of metastasis; high expression correlates with aggressive proliferation, migration, and spheroid growth in epidermoid carcinoma, medulloblastoma, and mesothelioma, while silencing PTGFRN impairs these traits and disrupts autophagy (PMID: 38924562). The calculated value of PTGFRN is 98 kDa. It has multiple glycosylation sites and its molecular weight after glycosylation is approximately 100 - 130 kDa.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

LN-229 cells were subjected to SDS PAGE followed by western blot with 87504-1-RR (CD315/PTGFRN antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 87504-1-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 87504-1-RR (CD315/PTGFRN antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 87504-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 87504-1-RR against Human CD315/PTGFRN were performed. The affinity constant is below 1 pM.
