

For Research Use Only

Mouse Darc Recombinant monoclonal antibody, PBS Only

Catalog Number: 87728-1-PBS

Basic Information

Catalog Number:

87728-1-PBS

Size:

100ug, Concentration: 1 mg/ml by Nanodrop;

Source:

Rabbit

Isotype:

IgG

GenBank Accession Number:

BC005583

GeneID (NCBI):

13349

UNIPROT ID:

Q9QUI6

Full Name:

Duffy blood group, chemokine receptor

Observed MW:

38kDa, 43 kDa

Purification Method:

Protein A purification

CloneNo.:

253012E10

Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human, mouse

Background Information

Mouse Darc (Acr1) is an atypical chemokine receptor expressed predominantly on erythrocytes and endothelial cells, where it binds diverse inflammatory chemokines without classical GPCR signaling. By functioning as a chemokine reservoir and transporter, Acr1 regulates chemokine gradients and leukocyte trafficking during inflammation. Studies in Acr1-deficient mice highlight its role in immune homeostasis and neutrophil recruitment, establishing Darc as an important regulator of systemic chemokine availability and inflammatory responses.

Storage

Storage:

Store at -80°C.

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 87728-1-RR (Darc antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 87728-1-PBS in a different storage buffer formulation.
