

For Research Use Only

PITX1 Recombinant monoclonal antibody, PBS Only

Catalog Number: 88143-1-PBS

Basic Information

Catalog Number: 88143-1-PBS	GenBank Accession Number: BC009412	Purification Method: Protein A purification
Size: 100ug , Concentration: 1 mg/ml by Nanodrop;	GeneID (NCBI): 5307	CloneNo.: 260497B7
Source: Rabbit	UNIPROT ID: P78337	
Isotype: IgG	Full Name: paired-like homeodomain 1	
Immunogen Catalog Number: AG1303	Calculated MW: 34 kDa	
	Observed MW: 38-40 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human

Background Information

PITX1 (Paired-like homeodomain 1) is a bicoid-related homeobox transcription factor that plays critical roles in embryonic development, particularly in patterning the hindlimb and regulating pituitary organogenesis. It is also known as "Backfoot" due to its involvement in establishing left-right asymmetry during limb formation. Beyond development, PITX1 has been implicated in various cancers, where it can function as either a tumor suppressor or an oncogene depending on the cellular context, and its dysregulation is associated with tumor progression and metastasis.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS only, pH7.3

W: ptglab.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 88143-1-RR (PITX1 antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 88143-1-PBS in a different storage buffer formulation.
