For Research Use Only

Anti-Human TNF beta Rabbit Recombinant Antibody, PBS Only

Catalog Number: 98056-1-PBS

Purification Method:

Protein A purfication

CloneNo.:

240393C3

Basic Information

Catalog Number:

98056-1-PBS

Size:

1mg, 2 mg/ml Source:

Rabbit Isotype:

member 1)

Calculated MW: 205 aa, 22 kDa

BC034729

4049

P01374 Full Name:

GeneID (NCBI):

UNIPROT ID:

GenBank Accession Number:

lymphotoxin alpha (TNF superfamily,

Applications

Tested Applications:

FC (Intra)

Species Specificity:

human

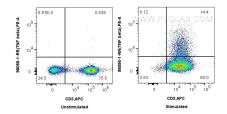

Background Information

TNF beta also known as lymphotoxin alpha (LTA), is a member of the tumor necrosis factor family, and is a cytokine produced by lymphocytes. TNF Beta is highly inducible, secreted, and forms heterotrimers with lymphotoxin-beta which anchor lymphotoxin-alpha to the cell surface. TNF Beta also mediates a large variety of inflammatory, immunostimulatory, and antiviral responses, is involved in the formation of secondary lymphoid organs during development and plays a role in apoptosis.

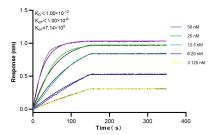

Storage

Storage: Store at -80°C. Storage Buffer: PBS Only

Selected Validation Data

1x10^6 untreated or anti-CD3/CD28 treated human PBMCs were intracellularly stained with 0.25 ug Anti-Human TNF beta Rabbit Recombinant Antibody (98056-1-RR, Clone: 240393C3) and PE-Conjugated AffiniPure Goat Anti-Rabbit IgG. Cells were then stained with APC Anti-Human CD3. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C). This data was developed using the same antibody clone with 98056-1-PBS in a different storage buffer

Biolayer interferometry (BLI) kinetic assays of 98056-1-RR against Human TNF Beta were performed. The affinity constant is below 1 pM.
